EVS CALL

About INEX Slovakia

Who Are We Looking For?

Practical Arrangements

„I think my EVS was the best opportunity for me to become more open minded and tolerant person. As for the whole year I have been in multicultural environments meeting different people with different cultures and cultural background. Thanks to my EVS I discovered Slovakia, Slovak culture, history and Slovak mentality, I fall in love to this country and this land. And of course thanks to my EVS I met my true friends 😊.“

“To me, an EVS is about meeting new people, discovering a new country and understanding yourself a bit more while being useful. This EVS is particularly good for all of that !.”

“To be a volunteer at INEX is interesting because there are so many different things to do and learn. Also the work community is great; everyone is always ready to help us.“

'EVS is the best international experience I've had so far. It helped me to grow up and to set more clearly my aims for the future.'

Veera from Finland & **Sophie** from France
Inex Volunteers 2016

"While doing my EVS I developed the feeling I was at the right place doing the right thing and to be honest I think this amazing experience helped me out to become a better version of myself (how cliché but how true!)."

Madara from Latvia & **Mylène** from France
Inex Volunteers 2015

EVS CALL

**About INEX
Slovakia**

**Who Are We
Looking For?**

**Practical
Arrangements**

Are you....

- Responsible, Flexible & Tolerant ?
- Focused on Working with Youth?

- Coming from EU country?

If you have answered 'yes' to all of the above questions.....

**Than we
want
YOU!!!!**

**One advice:
Don't forget to
show us your
motivation 😊**

Main activities of the EVS-volunteers

Taking part in the preparation and realization of our activities which are mostly based on organizing leisure time activities for young people: We would like to involve the EVS volunteers in various activities which we organize. In the beginning we will introduce our activities to the volunteers and it will be up to them in which ones they will get involved. It will be chosen according to his/her abilities and skills. But we would encourage them to try to participate in activities in which they could develop and gain some new experiences and skills. The volunteers will be involved in the whole process of preparing and realizing the activity. Of course we will help them; we will work in a team. We will always explain how we plan on organizing the activities and we welcome their initiative and contribution with creative ideas and inputs.

We would especially like to involve the EVS volunteers in these activities:

- **"Tea meetings"**- the EVS volunteers may contribute with ideas for the topics of these "tea meetings"; they create an invitations for our volunteers; prepare the office according to the needs for the individual meeting; preparing the material for the "tea meeting"; also we would be very happy when they would present their own country, culture and ideas.
- **Trainings for our volunteers**- due to their abilities, experiences and skills we would welcome her/his participation on our trainings which we organize for our future camp leaders; the EVS volunteers may help us as well as a support with the organization of these activities like buying materials, preparation of the program etc. We would welcome the creativity and initiation of the volunteer.
- **Becoming the co-leader on the workcamps in Slovakia** - depending on the interest of the volunteers, they will be able to participate at one (eventually at several) international voluntary workcamps in Slovakia. They can put all this theoretical knowledge, which they will gain during the project, into practice in the direct contact with the group of young people from different cultures.
- **Organizing events in cooperation with our partner organizations**- the volunteers will create the program for the activities; prepare and help with realizing the activity; promoting the activity among our volunteers and motivate them to participate in these activities. The volunteers will also contribute with organizing reasonable free-time activities for disabled people.
- **Promotion of voluntary work and EVS** - Promotion of volunteering and concrete voluntary activities is always extremely important when organizing voluntary activities and participating of youth. That is why our EVS-volunteers will visit schools and run presentations and workshops mostly about volunteering. They will be also involved in our promotional team and dealing with our online media such as facebook, linkedin, twitter and Inexweb page on daily basis.
- **Participation on the workcamps abroad** -If they are interested, the volunteers will be able to participate in an international voluntary workcamp abroad.
- **Administrative work** - We would like the EVS volunteers to help us with some administrative work like sorting and copying documents and other things. They will help a bit with shopping, going to the post office and work with our webpage and database. The volunteers will communicate with our volunteers to inform them about our activities. The communication will be through mail, phone calls and directly when the volunteers visit us in the office. The activities will be flexible and depend on the phase of the project. We will create a timetable for each individual volunteer fitting his/her skills, abilities and wishes. In case we organize the project and the volunteer is involved in, she/he is welcome to join the whole project and to help to run the activities. In case the amount of working hours is higher than usual, the volunteer will get alternative holidays.

**Practical
Arrangements**

Board

The EVS-volunteers will receive money for food together with the pocket money at the beginning of every month. They will manage the money on their own, and from these finances they will also buy their food. They will prepare food by themselves. In the flat, where they will be living, there is a fully equipped kitchen which they can use.

Accommodation

The EVS-volunteers will be living together in an appropriately equipped flat only 5 minutes far from the Inex Office. This flat is situated near the city center as well as all the important institutions are around. They can find there laundry facilities as well as fully equipped kitchen.

Language course

The EVS-volunteers will learn Slovak language taking private Slovak lessons. Slovak language belongs to Slavic group of languages and it might seem as very difficult but on the other side a very beautiful ☺.

Holidays

Volunteers will have holidays during the project which could be used by them however they have to agree with a supervisor in advance. They will have 2 days each month for holidays, so in the case of an 11-month project it means 22 days off.

Travelling in Bratislava

Volunteers will use public transport in Bratislava (buses, trams, trolleybuses). They will arrange the card for public transport together with their mentor. Mentor will also help them with orientation in the public transportation system as well as he will be always willing to help them if needed.
