

ERASMUS+ PROGRAMME
Key action 1 - Learning Mobility of Individuals

THE BUTTERFLY EFFECT

Raising Awareness Among European Youth on the Refugees Crisis

GENERAL BACKGROUND

In 2013 Lunaria designed and launched a **medium term strategy AIMED** to promote antiracism, through mobility and voluntary service activities and projects.

The priorities of this strategy were and are:

- to raise **youth** awareness on the daily growth of racism and xenophobia and to share relevant tools to make sensitisation among other peers;
- to provide **youth workers** and **peer educators** with new tools to fight the racism wide-spread and to promote fair, intercultural approaches;
- to provide **local, international organizations** and **NGOs**, with new tools to conceive and implement anti-racism actions and projects;
- to share **good practices** and **working methods** to make more effective the anti-racism action both in Europe and world-wide;
- to create a **network** of different actors and organizations from the civil society, interested in anti-racism, human rights promotion and intercultural exchange.

Within this strategy the following projects have been already implemented:

- **SHARING IDENTITIES Open Mind for an Intercultural Europe**: training course on intercultural learning, individual and multiple identities;
- **MIGRANT TOOLS Social work to promote intercultural dialogue**: training course to raise awareness toward migration and to promote anti-racist behaves;
- **WORDS ARE STONES Youth participation against racism: online and offline**: a training course on hate speech, on line and off line, toward migrants and refugees;
- **UNVEILING STORIES Youth Work Against Racism**: a training course to develop non formal education and theatrical tools to raise youth awareness toward the racism widespread in Europe;
- **TAKE IT OUT! Shaping youth commitment against racism**: a training course to further develop the work about on and off line hate speech and to develop tools for youth workers to fight the widespread of the phenomenon.

The Butterfly Effect includes different actions – Training Course, Job Shadowing and Youth Exchange – and is part of the above mentioned strategy and **AIMS to develop tools and methods to raise awareness, among young people and adults in Europe, on the daily growth of discriminations, racism and xenophobia toward the migrants and refugees.**

The project will be connected to the actions proposed within:

- the **Global Action Task Force of Alliance of European Voluntary Service Organizations network**, focused on migrants and refugees, aimed to raise awareness on the issues, to develop tools and concrete actions within the IVS movement to address national and international challenges;
- The **Raising Peace Campaign of the CCIVS**, aimed at strengthening and improving the visibility of the role of the International Voluntary Service movement in the construction of Peace and Human Rights, through raising awareness, training activists and making advocacy and networking.

SPECIFIC OBJECTIVES

TRAINING COURSE – TC: to raise awareness on the current situation in EU concerning the racism widespread, to share good practices and pilot experiences in the anti-racist field and to develop tools and methodologies to promote anti-racist actions and projects in the involved countries.

JOB SHADOWING – JS: to raise awareness on the racism widespread among local camp leaders and youth leaders, and to provide them with tools to afterwards run thematic workshops focused on anti-racism during camp leaders seminars and workcamps.

YOUTH EXCHANGE – YE: to raise awareness among young people on the racism and xenophobia widespread, to share relevant information to promote an anti-racist youth culture and to develop tools to afterwards run local anti-racist activities with groups of peers.

TARGET GROUP

TRAINING COURSE – TC: youth workers, peer educators, youth leaders and activists interested in antiracism and in raising awareness toward the migrants and refugees conditions.
Participants with migratory backgrounds will be particularly welcome to the experience.
AGE: 18+

JOB SHADOWING – JS: 4 young facilitators and group leaders, previously involved in the TC.
NOTE: after the training, each one of the four, will support a partner organization **in the camp leaders seminars preparation and implementation.** Furthermore during the seminars they will also run specific thematic workshops to raise awareness toward migrants and refugees. The idea is that afterwards, the camp leaders could repeat these workshops in the workcamps they will coordinate during summer time.

YOUTH EXCHANGE – YE: young people (aged between 18 - 30) interested in the topic.
NOTE: 5 of the training course participants, after being trained on contents and non formal education methods, will be the group leaders of their group during the YE and will also support their sending organizations in the pre-departure preparation and orientation.

METHODOLOGY

The whole project will be based on non formal education NFE methodologies.

For this reason it will be articulated following the NFE main pillars:

- flexibility, being learner-centred, contextualized and based on the promotion of participatory approaches;
- horizontal cooperation, where facilitators and experts create a shared learning path with participants and trainees, encouraging the exchange of knowledge;
- personal empowerment through self-esteem raising, development of the self confidence, competences and skills development.

During the project it will be proposed a **LEARNING BY DOING APPROACH**, where in each activity, the specific objectives will allow to better target the action and to ensure a coherent learning process.

Another important element will be the possibility to **RE-ADAPT THE METHODS** during the process, taking into account the needs of participants and of the different actors involved. This decision due to the need of giving flexibility to the learning experience, encouraging the different learning approaches and the activation of the individual skills.

JOB SHADOWING

IMPORTANT REMARKE: as previously anticipated, the Italian NA made some reductions in the budget. We recently received their letter of approval and we discovered that only the Job Shadowing involving Italy (in sending and hosting) have been approved. Unfortunately the exchange between countries (not involving Italy) were not approved.

Below the table update (in grey the mobility not approved, in light green the mobility approved)

GENERAL REMARK

ELIBILITY OF EXPENDITURES

The eligibility starting date of the project is the 01/08/2016. All the expenditures occurred before this date are not considered formally eligible and cannot be refunded.

TRAVEL COSTS AND REFUNDS

The amount described above is calculated through the Travel Distance Calculator of the EACEA.

This amount is the maximum that can be refunded.

The travel costs, anticipated by participants, are refunded upon the presentation of all the travel documents in originals, up to the maximum specified in the tables above "AMOUNT per person" and accordingly to the travel documents and invoices received by Lunaria.

In the case the travel costs beard will exceed this amount, the amount refunded will correspond to the one fixed in the E-Form.

We will refund all the participants after the end of the project, upon the presentation of the travel documents, once we receive all the tickets and air boarding passes A/R in original. Normally the refund process can take, approximately, 4 – 6 months.

The refunds will be done directly to the sending organizations bank account, not to the participants bank accounts.
