

Youth in action programme  
Action 1.1 ~ Youth exchange  
**Finding yourself in Europe**

The project will take place in Slovakia, in the medieval town of Banská Štiavnica, proclaimed by the UNESCO to be a World Heritage within its surroundings, from 16th to 24th of September 2013.

The 20 participants from 4 different countries will be discussing one of the main topics of past years – **youth unemployment and opportunities in the current economical situation in Europe**. During the project they would also discover more about themselves and who they are through different daily activities, workshops, discussions and games. They will try to find a way how to connect their personal interests with work possibilities. Moreover it will also offer some important tools in the field of youth entrepreneurship, giving technical information about Youth in Action programme and the possibility to be applicants. The youngsters will be encouraged to make proposals of concrete actions in the field of personal development and unemployment in their own countries.

There will also be excursions in the beautiful nature of Banská Štiavnica. Closer connection with the nature will help them to discover more about themselves and their interests. Throughout our exchange we will cover three fields of identity development – personal, professional and European. The main aim of the project is to try to avoid work discomfort by forming more capable individuals for the labor market and

individuals who enjoy their job.

**Intercultural dialog** will be reached mainly through everyday activities, but especially during the National Evenings where each country group will present the features of their own countries, culture, language, traditions and customs (through photos, videos, games, food, songs, dances, clothes from their country, etc..).
