Dates of the project: **March 2016 – December 2016**

How to apply: send your CV and questionnaire to [evs\(at\)inex.sk](mailto:evs(at)inex.sk) till 15.2.2016

Open places for: **1 EVS volunteer (to join our 2 volunteers from Finland&France)**

Place of the project:

The project will be realized in our office in **Bratislava**. The volunteers will also visit other parts of **Slovakia** during the project, it will depend on our activities such as trainings, workcamps, and others events.

Who are we looking for?

Our criteria are very open. However, the project is focused **on working with youth**. We would be very happy to host the volunteers with communication skills and interests in this topic (volunteering, leisure time for youth, workcamps). It would be helpful if the volunteers have some knowledge about the theme of our project and would be motivated in working with youth and also about international workcamps which are one of our main activities. Of course drug use is not allowed to protect our young volunteers. We would be happy if the volunteers are interested in Slovakia, its people and culture and wish to learn the Slovak language. They could be communicative, open minded, creative and ready to work with young people.

The life at INEX and in Bratislava can sometimes be hectic so we would be glad if volunteers are flexible and independent (in the case of their free time ☺).

The main criteria are openness and tolerance as INEX is working with young people from around the world.

Main activities of the EVS-volunteers

• Taking part in the preparation and realization of our activities which are mostly based on organizing leisure time activities for young people: We would like to involve the EVS volunteers in various activities which we organize. In the beginning we will introduce our activities to the volunteers and it will be up to them in which ones they will get involved. It will be chosen according to his/her abilities and skills. But we would encourage them to try to participate in activities in which they could develop and gain some new experiences and skills. The volunteers will be involved in the whole process of preparing and realizing the activity. Of course we will help them; we will work in a team. We will always explain how we plan on organizing the activities and we welcome their initiative and contribution with creative ideas and inputs.

We would especially like to involve the EVS volunteers in these activities:

- **"tea meetings"**- the EVS volunteers may contribute with ideas for the topics of these "tea meetings"; they create an invitations for our volunteers; prepare the office according to the needs for the individual meeting; preparing the material for the "tea meeting"; also we would be very happy when they would present their own country, culture and ideas.

- **Trainings for our volunteers-** due to their abilities, experiences and skills we would welcome her/his participation on our trainings which we organize for our future camp leaders; the EVS volunteers may help us as well as a support with the organization of these activities like buying materials, preparation of the program etc. We would welcome the creativity and initiation of the volunteer.

- **Becoming the co-leader on the workcamps in Slovakia**

Depending on the interest of the volunteers, they will be able to participate at one (eventually at several) international voluntary workcamps in Slovakia. They can put all this theoretical knowledge, which they will gain during the project, into practice in the direct contact with the group of young people from different cultures.

- **Organizing events in cooperation with our partner organizations-** the volunteers will create the program for the activities; prepare and help with realizing the activity; promoting the activity among our volunteers and motivate them to participate in these activities. The volunteers will also contribute with organizing reasonable free-time activities for disabled people.

- **Promotion of voluntary work and EVS;**

Promotion of volunteering and concrete voluntary activities is always extremely important when organizing voluntary activities and participating of youth. That is why our EVS-volunteers will visit schools and run presentations together with discussions on volunteering and together with a representative of INEX Slovakia, visit media such as radio and speak about their projects and in this way to promote volunteering. They will be also involved with our promotional team.

- **Participation on the workcamps abroad**

If they are interested, the volunteers will be able to participate in an international voluntary workcamp abroad.

- **Administrative work:** We would like the EVS volunteers to help us with some administrative work like sorting and copying documents and other things. They will help a bit with shopping, going to the post office and work with our web-page and database. The volunteers will communicate with our volunteers to inform them about our activities. The communication will be through mail, phone calls and directly when the volunteers visit us in the office. The activities will be flexible and depend on the phase of the project. We will create a timetable for each individual volunteer fitting his/her skills, abilities and wishes. In case we organize the project and the volunteer is involved in, she/he is welcome to join the whole project and to help to run the activities. In case the amount of working hours is higher than usual, the volunteer will get alternative holidays. The volunteer will be working on a team.
