This is where your help is needed: the outside grounds should be revamped to be more appealing for children, so that they have more opportunities to play outside. Firstly, the slope behind the centre should be freed from vegetation in order for new things to be planted, and a sloped ramp with a rope should be built, that the children will be able to use for climbing. Secondly, you will construct a climbing wall and some benches by the small boules pitch.

Your accommodation will be in a building near to the family centre, as well as in the centre's sports hall. You will cook your own meals together.

Work: Culture

Number of volunteers: 8

Language: English

Age: 16-20

Extra-Fee: 250€

## ► PROJECT DESCRIPTION & WORK

This is the ninth year that SEEDS organizes series of International Photo marathons Every two weeks throughout the year volunteers from all over the world come to Iceland for an intensive Photo marathon project. SEEDS coordinators work with the participants to develop their unique photographic voice through workshops and feedback sessions on technical settings, compositional considerations as well as developing conceptual frameworks which progress the participants individual style. When the workshop ends, we gather as a group to select some of our best pictures from the trip and prepare those images for an informal group exhibition locally. While learning more about photography the participants explore Icelandic culture by taking part in it, capturing it and also by working for the City of Reykjavik.

One of our objectives is to deliver messages and draw the attention to the local population through pictures and photos made during the camp. Participants should arrive ready to shoot and should bring with them their own digital cameras, lenses and laptops if possible. Volunteers should be prepared for walking and visually exploring the city streets and working within a flexible time schedule. Participants will be photographing in their free time outside of workshop hours with images to be discussed at group feedback sessions.

Please note that this project is more of a learning/sharing camp and not a regular work camp; we may be able to organize some outdoor voluntary service but it depends on our partners and weather conditions. SEEDS also organizes excursions outside of the city, which gives the chance to see more of what this beautiful country has to offer at a discounted price.

#### ► ACCOMMODATION AND FOOD

SEEDS participants will stay in a house in Reykjavik. The facilities are basic with a shower, washing machine, kitchen and everyone is expected to show consideration for their companions. We will sleep in shared rooms in a sleeping bag accommodation. Please bring your own sleeping bag.

We will receive food supplies and be in charge of the cooking and cleaning activities. Do not forget some traditional/typical food from your home country for the international evening.

#### ► LOCATION AND LEISURE TIME

Reykjavik is a dynamic, modern city which lives in harmony with beautiful nature, using renewable energy sources - geothermal power and glacial rivers. The world's northernmost capital bridges the Atlantic, between Europe and North America. Reykjavik is spread across a peninsula with a panoramic view of the mountains and the Atlantic Ocean on almost all sides.

Reykjavik is often called the nightlife capital of the north. But there is more to Reykjavik than pubs and clubs. Reykjavik also gathers the most interesting of Icelandic culture. It is an incubator of new ideas and styles which often indicates new global trends. It is an International city with a lively Cosmopolitan cultural scene surrounded with beautiful nature. In the area closer than 100 Km from Reykjavik, there are several spectacular waterfalls, geysers, impressive coastline and the well-known geothermal Blue Lagoon spa to visit.
