# GENERAL BACKGROUND

Lunaria launched in 2012 a **MEDIUM TERM STRATEGY** aimed to explore gender issues, with a European and worldwide perspective, enhancing **women empowerment** and **gender equity** by developing new tools and working methods within the youth work.

One of the main pillar within this strategy, targeted to young people, youth-social workers, peer educators and NGOs, was the enhancement of the capacity building processes among EU and partner countries organizations.

The main **PRIORITIES** within this strategy were and are:

- to raise **youth** awareness on the daily growth of discrimination and to share relevant tools to make sensitisation among other peers;
- to provide **youth workers** and **peer educators** with new tools to fight the discrimination wide-spread and to promote intercultural approaches;
- to provide **local, international organizations** and **NGOs**, with new tools to conceive and implement actions and projects;
- to share **good practices** and **working methods** to make more effective the local and global action in Europe and worldwide;
- to create a **network** of different actors and organizations from the civil society, to promote equality and human rights.

The first action was the project **JAMBO Young Women Empowerment to Improve Quality of Youth Work and Volunteering in EU and Partner Countries**, Key Action 2, within the Erasmus+ program. The project allowed to set a grass-rooted action in Kenya, Tanzania and Uganda, and to develop active methodologies to be applied in the field of gender equality.

The second action was the project **PANDORA'S BOX Young Women, Community Development through EU and LA Cooperation**, another Key Action 2, within the Erasmus+ program. This time the project set its geographical focus on Central and Latin American, involving Ecuador, Mexico and Peru.

The third action is the current project **STAGED! Struggling Against Gender-based Discrimination through Youth Work in EU and Asia**, a Key Action 2, within the Erasmus+ program. This time the geographical focus was on South Eastern Asia, involving Indonesia, Myanmar and Vietnam.

In the three projects the cooperation with European organizations was very important: indeed, it ensured a cross-sectorial and intercultural approach to gender issues and favoured the development of global competences and methods to fight gender-based discrimination.

# PROJECT DESCRIPTION

**STAGED! Struggling Against Gender-based Discrimination through Youth Work in EU and Asia**, is a Capacity Building project implemented by Lunaria, thanks to the support of the Erasmus+ Program, that took place from the 1<sup>st</sup> of January 2017 to the 30<sup>th</sup> of August 2018.

The project **AIM** was to enhance gender equity and young women empowerment by providing youth workers, peer educators, local organizations and international NGOs, in EU and SEA, with new tools and methods to favour young women participation in projects, in local and international activities.

The project **SPECIFIC OBJECTIVES** were:

- to **raise awareness** on the need of promoting young women empowerment, equal rights and opportunities for both men and women in EU and SEA countries;
- to deepen the different **gender role models** in the involved countries so to draft and propose new role models based on equal rights, responsibilities and opportunities for both males and females;
- to exchange the **good practices** in the field of gender equality and women empowerment, among EU and SEA civil society organizations;
- to develop **NFE tools and working methods** to favour the raising awareness process and the young women participation in EU and SEA countries;
- to provide participants with new **competences and know how on project planning** and project life' cycle in order to create an effective set of actions and initiatives in the gender equality framework within the involved countries.

**STAGED!** saw the active involvement of **1.542 PARTICIPANTS**, mainly youth workers, young people and groups of local women, involved in all the project' steps.

The project was realized in **PARTNERSHIP** with European - EU and South Eastern Asia – SEA voluntary service and civil society organizations: Concordia – France, Universitur – Romania, GREAT - Indonesia, COM - Myanmar, CSDS – Vietnam.

The active involvement of all the organizations and participants, led STAGED! to achieve the following **OUTCOMES**:

- deepening of the **analysis concerning gender issues** in different societies, comparing the European and South Eastern Asia perspectives and enhancing a cross-cultural approach in gender sensitive issues;
- development of a pedagogical set of **methodology** and **training methods** for youth workers and peer educators, including the testing, upgrading and assessing of non formal learning methods to promote gender equality and women empowerment;
- enhancement of the **cooperation** and **networking** both at local level among youth organizations and women's informal groups, as well as at international level, between EU and SEA organizations.

## MAIN ELEMENTS of the FEASIBILITY VISIT

### GENDER BASED VIOLENCE

**there** were shared different cases of GBV, most of the time domestic violence (sexual violence, marital rape, psychological violence)

**there** is the common idea that what happens at home should not be shared outside: most women are afraid to denounce the domestic violence both because in some cases, if perpetrated by the husband, (not continuously) is not considered violence and because they are afraid of the social stigma (of being considered not a good mother and a good wife)

### WOMEN AND MIGRATION

**mostly** in Vietnam and Indonesia it's quite common for women to migrate, both within the country for seasonal jobs as well as abroad. Main destinations are China, Taiwan, Singapore, Malaysia, Saudi Arabia, Hong Kong, South Korea

**migration** exposes women to extra challenges: they are exploited, usually they don't have working contracts, so they cannot enter the health and social security services and report the cases of violence, if they face any

**migration – marriage:** specifically in Vietnam there are several cases where marriages are pre-arranged (Vietnamese bride – Chinese groom). In this case women are either forced by the family or they decide on their own to do it in order to economically support the family afterwards. In this case poverty and the lack of economic resources play an important role in the decision process

**social stigma** in migration: if you migrate and come back home with economical resources you are well perceived by society, while if you have been exploited or victim of violence you are badly perceived by society. Women victim of violence usually don't speak up of what happened when they were abroad. It leads to harmful consequences from the psychological and social point of view

### MARRIAGE

**social institution:** in all the three countries was pointed out the importance of marriage, both for men and women. The average age is 20 – 25, but it varies a lot in each country and accordingly to urban/rural dimension, as well as the level of education

**in all the countries:** there are still cases of early marriage (generally from 14 up). In many cases the early marriage is taking place in those areas where there is more poverty and lower education (mostly in rural areas, but also in urban - suburban)

### TRAFFICKING

**trafficking** of women and children: the main destinations are China, Taiwan, Singapore, Malaysia, Saudi Arabia, Hong Kong, South Korea

**the victims** of trafficking normally are involved in jobs with very poor conditions, high rate of exploitation and in sex work

**migration – trafficking:** several women are convinced/recruited by "agents" to migrate in other countries with the perspective of well remunerated jobs. Once they arrive, they are more exposed to trafficking: their documents are taken (so it's harder to escape) and they are forced to work in jobs not corresponding to the initially promised ones. These jobs are not paid or poorly paid, thus they are exploited

# METHODOLOGY AND LEARNING

The activities implemented during STAGED! project are mainly based on non formal education.

**NON FORMAL EDUCATION - NFE** is any organized educational activity which takes place outside the formal educational system (schools-university) and outside the formal educational curriculum.

Non formal education is based on the **LEARNING BY DOING APPROACH**, where specific aims are well fixed and clearly defined in each activity proposed so to ensure a coherent learning process.

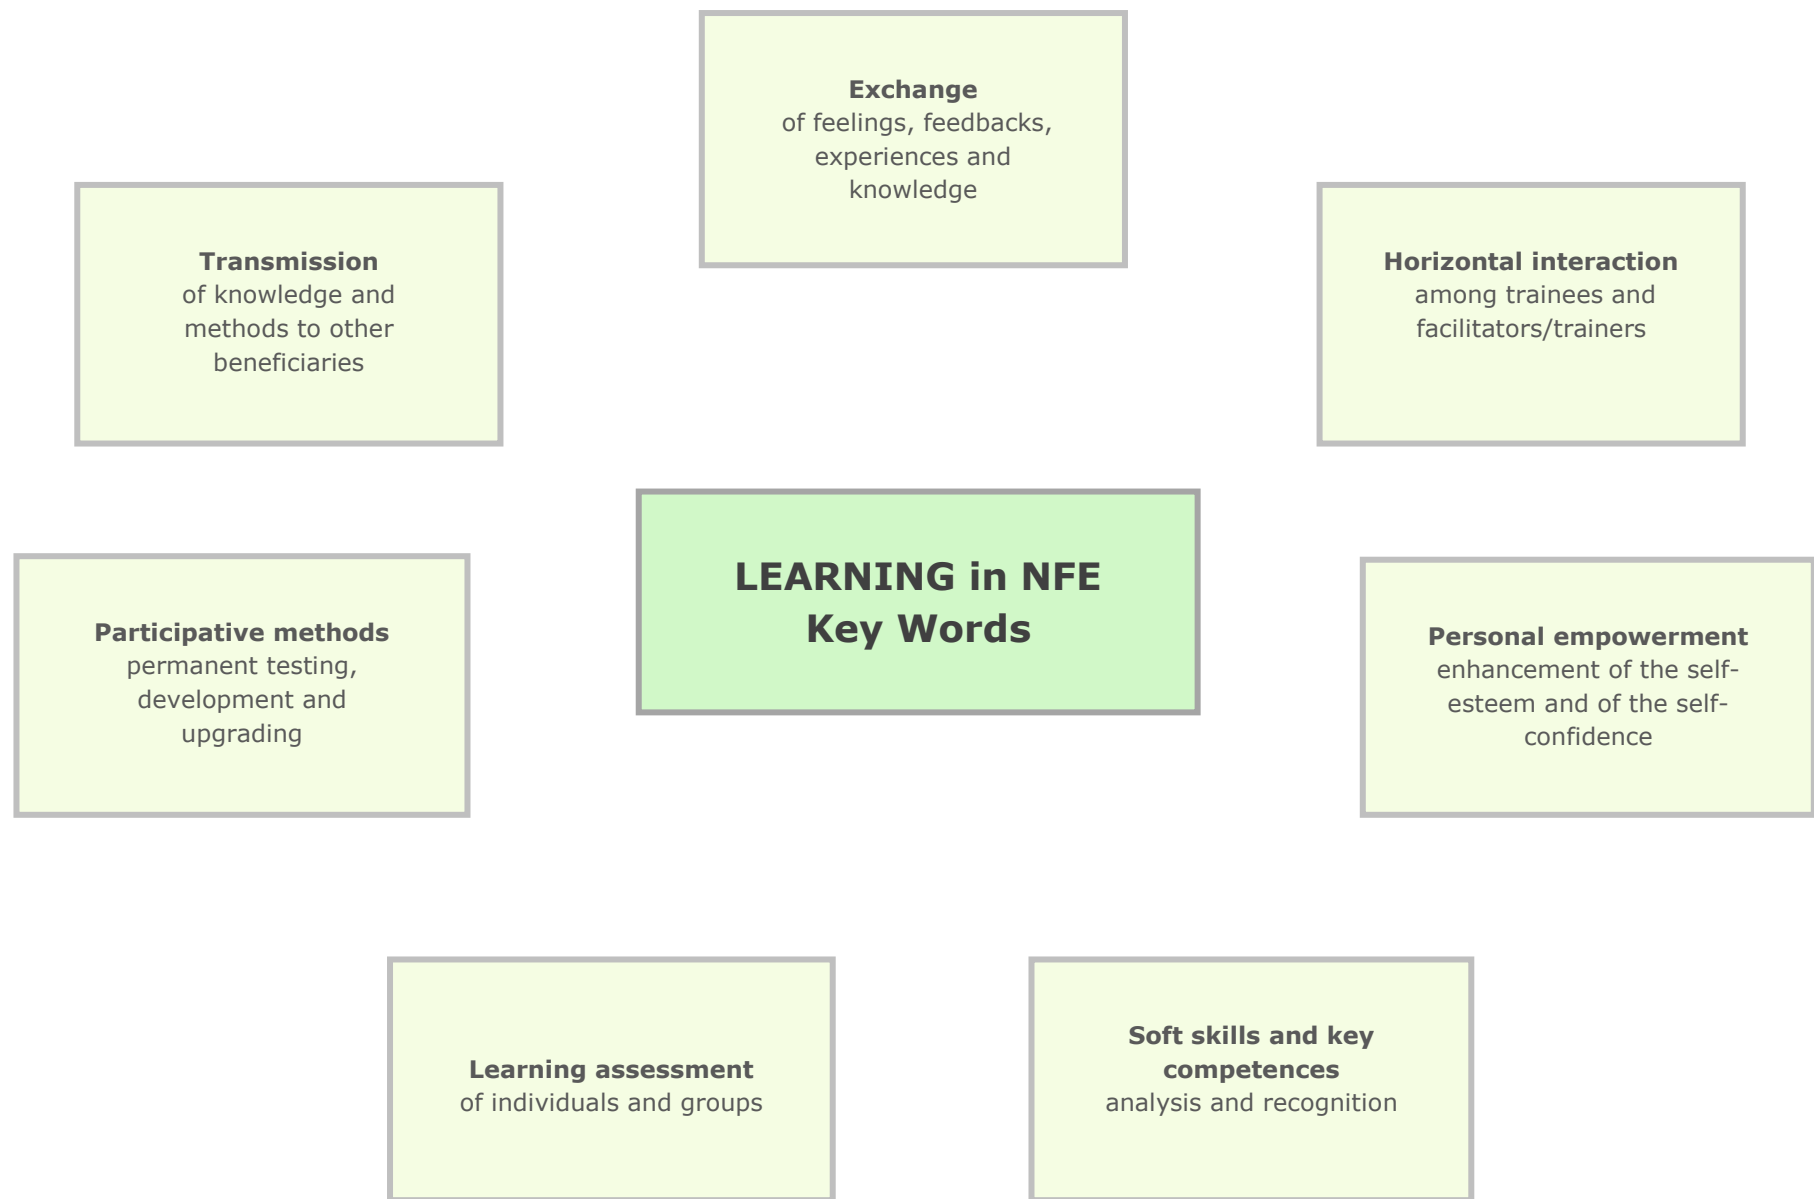

Non formal education lies on the idea that human beings never stop learning and developing, that we all learn different things in different moments and in different spheres of our life. For this reason, it's important to propose a **LIFE-LONG-LEARNING APPROACH**, to encourage the acquirement of competences, knowledge and to develop new skills all along the life of each human being.

An important element in NFE is the possibility to **RE-ADAPT THE METHODS** during the process, taking into account the needs of participants and of the different actors involved. It brings to the learning experience a great flexibility, encouraging the different learning approaches and the activation of the individual skills.

Here some of the **MAIN PILLARS** part of the Non Formal Education:

- being **flexible, learner-centred, contextualized** and based on the promotion of **participatory approaches**
- **there are no teachers** delivering the information to students who are receiving them, but **facilitators** and **experts** to create a shared learning path, encouraging the horizontal exchange of knowledge with and among learners and experts
- raising of the self-esteem, development of the self-confidence, of **competences and skills** and activation of the personal empowerment.

Furthermore, the project has been grounded on the use of **GRAPHIC FACILITATION**, a powerful tool because of its flexibility. Different people have different ways and styles in learning and symbols, images and pictures, maps are useful to organize information and become important tools in acquiring, processing and transmitting knowledge. It was very useful to overcome language barriers, being based on a basic dictionary of images that can be understandable for everyone.

# HOW TO USE THE HANDBOOK

The Handbook **AIMS** to be a tool to facilitate the transmission of knowledge, tools and good practices. For this reason, this publication is meant as a reference point for those organizations, in EU and SEA willing to implement similar activities and projects in the field of gender equality and women empowerment.

The Handbook is addressed to different **ACTORS**: participants involved in the training courses, their organizations, other youth workers and associations interested to develop new actions to promote gender equality, using non formal education methodologies.

The project **STAGED!** and this Handbook are based on an **OPEN FORMAT** that can be replicated with different shapes and duration in different backgrounds and situations, being reshaped accordingly to the local needs.

The Handbook is conceived as a **FLEXIBLE TOOL**: it can be used to build up an entire training course, as well as smaller workshops or to propose a single activity during an action to raise awareness on gender sensitive issues.

**GENERAL REMARK:** whatever you will decide to use the activities and tools described we warmly recommend you to take into account the **situation of the local background**: indeed, the activities presented have to be readapted accordingly to the local backgrounds needs and specificities.

Please take also a specific attention to the **TARGET GROUPS/S** you are planning to involve: in the case you will decide to pick up some of the activities to work with youth workers as well as with people coming from different backgrounds and experiences, before to start the activity we recommend you to have a clear picture of the target needs and profiles. It will help your to bring adaptation, if needed.

# TABLE LIST OF ACTIVITIES

STAGED! is a multi-action project, where the different activities are chained to ensure a logical framework in terms of contents and methodologies. It is based on a step by step approach where the previous actions are preparatory and necessary to achieve the next ones.

The Handbook includes 3 Tool Kits, corresponding to the 3 international training courses, presented in chronological order, as well as in chronological order are the descriptions of the activities performed there.

In the same time, for convenience we have created the **Table List of Activities** that you will find in the next pages. Here there is a table corresponding to each training course and the activities are included under the training where they have been performed. Thus in each table the activities are not in a chronological order but in alphabetic order, accordingly to the topic explored, including the reference page number.

# CHAPTER 1

## GROUP CREATION

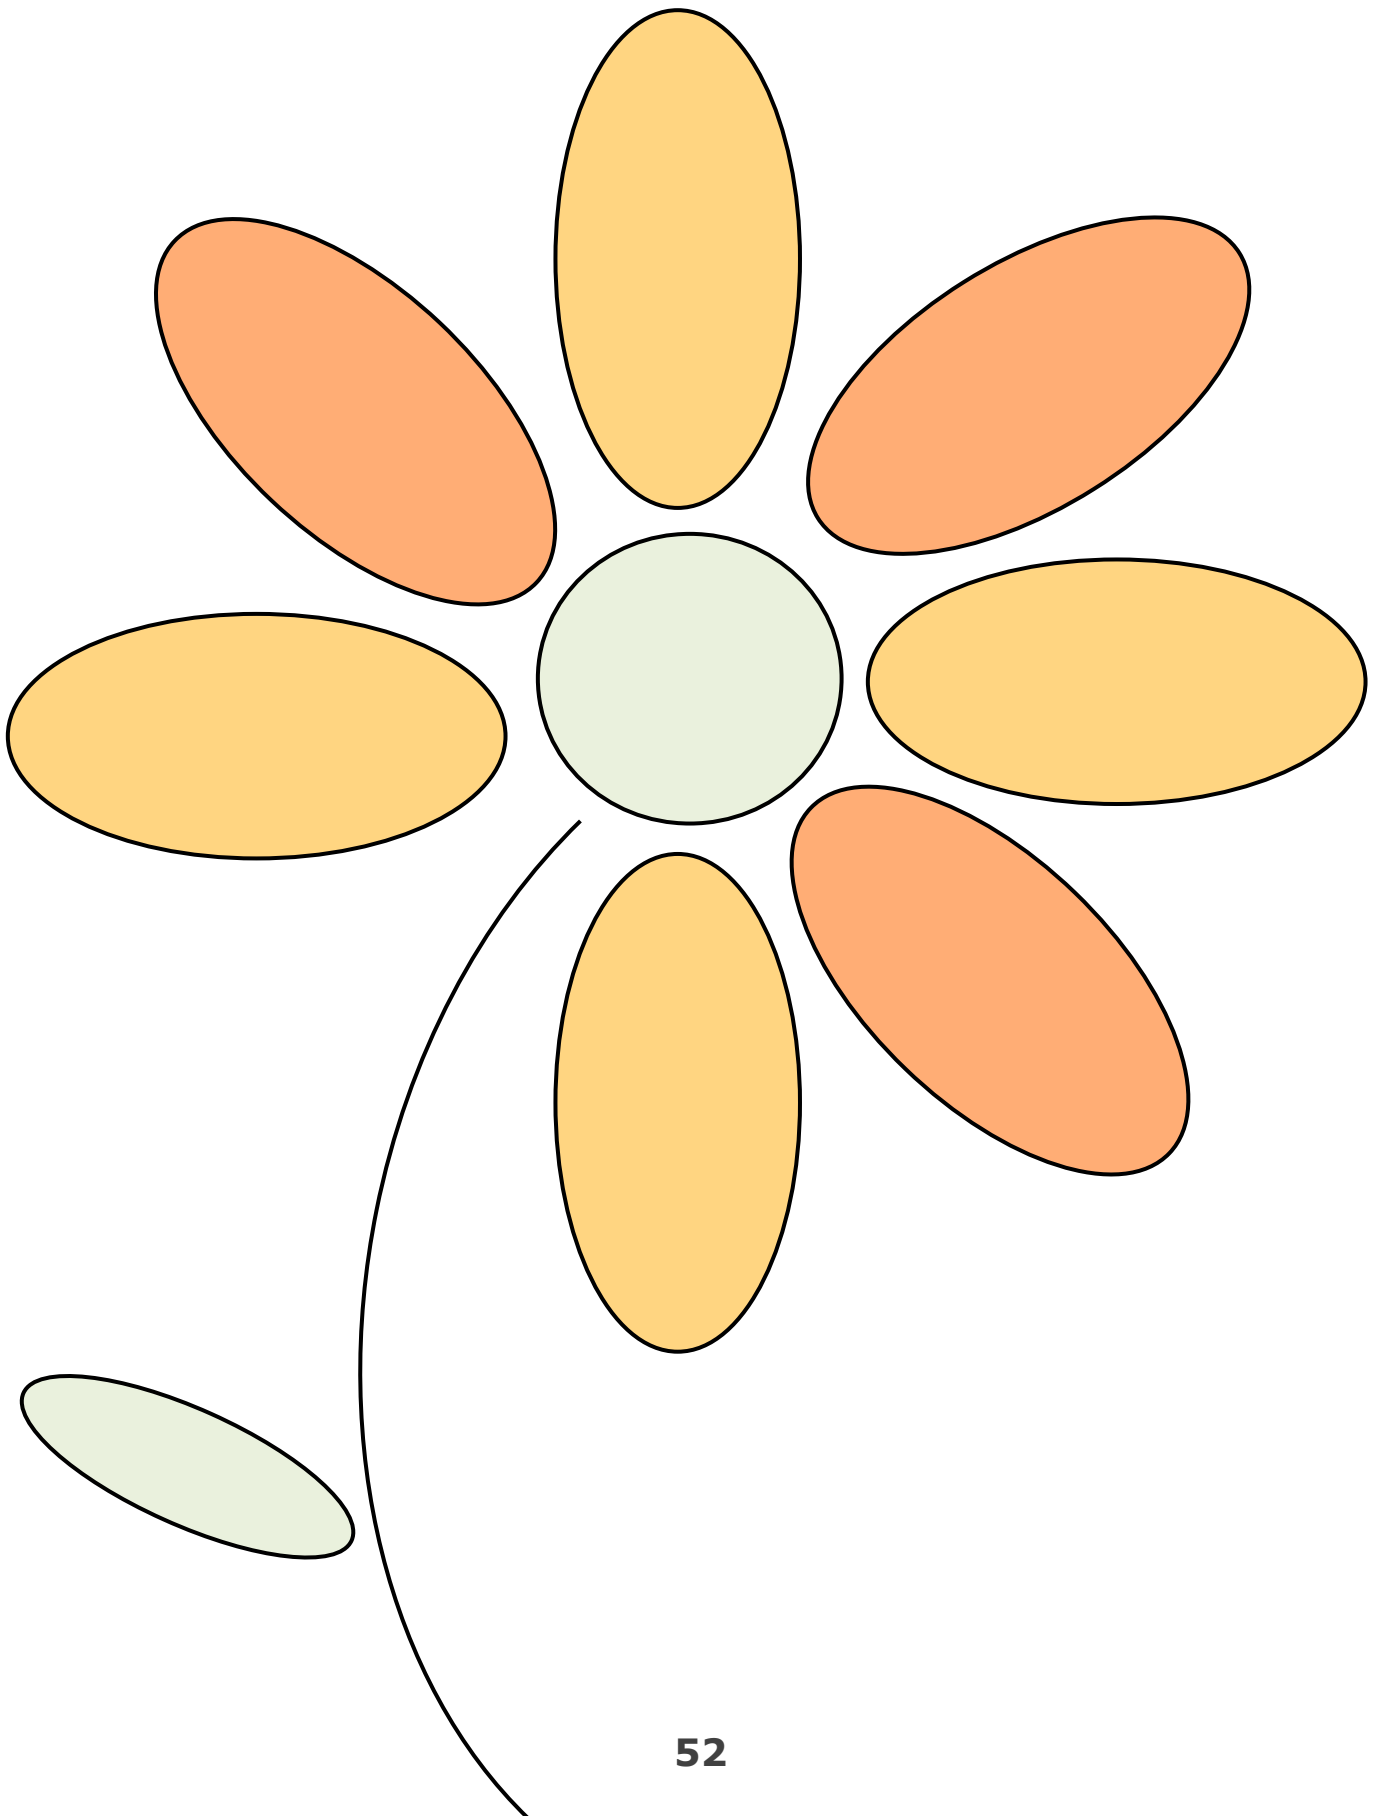

# NAME GAMES

<b>TITLE</b>	<b>Name games in three steps</b>
<b>TOPIC/S</b>	Learn the names/Getting to know each other/Group creation
<b>AIM</b>	To remember the names and to make participants interact
<b>TOOL TYPE</b>	Ice breaker/Name game
<b>MATERIAL</b>	/
<b>DURATION</b>	30 minutes
<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> participants are invited to stand in a circle, one by one saying their names, following the circle order.</p> <p><b>Step 2.</b> participants are still standing in a circle, one is starting saying the name of one of the group member and is running in his/her direction. This person has then to call another name and run in the direction of the person. The activity follows in the same way until everybody said their name.</p> <p><b>Step 3.</b> participants are still standing in a circle, with one person in the middle. When this person is pointing at someone saying his/her name, this person has to crouch down and the two people on his/her side have to guess the name of the other on the side. The faster wins, while the loser goes to the middle. The activity follows in that way until everybody said his/her name.</p>

# GETTING TO KNOW EACH OTHERS

<b>TITLE</b>	<b>Speed-dating Flower</b>
<b>TOPIC/S</b>	Getting to know each other's
<b>AIM</b>	To make participants to get in touch in an interactive way
<b>TOOL TYPE</b>	Getting to know each other's
<b>MATERIAL</b>	Printed copies with the Handout, pens, clock
<b>DURATION</b>	45 minutes – the duration depends on the n. of appointments fixed
<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> participants are receiving the Handout with the flower. In this case the flower has 10 petals corresponding to the 10 questions of the Handout below but it's possible to include how many questions as we prefer. Participants are asked to draw on the back side of the flower a clock with 10 hours, each one corresponding to a different meeting. Participants are asked to take, in each hour, one appointment with another person (no more people in the same meeting are allowed).</p> <p><b>NOTE:</b> also in this case the facilitator can include many hours as the number of appointment he/she would like to have, accordingly to the time at disposal.</p> <p><b>Step 2.</b> when the facilitator says, for example: "it's 1" all the participants should search for the partner in the appointment scheduled for 1 o'clock. During the appointment with the other person they can take key words or small notes on the flower's petals, corresponding to the question. Each appointment has a maximum time of 3 minutes. After the time it's over another appointment is called and so on till the end of the appointments.</p> <p><b>See Handout below.</b></p>

For this reason, we recommend to allocate a slot of 5 – 10 minutes at the end of each day where participants are asked to be back on the garden drawing and filling it.</p> <p>At the end of the project, the Garden Model can be used as evaluation tool to analyse the individual learning process of participants and their level of satisfaction.</p>

# TEAM BUILDING

<b>TITLE</b>	<b>Chopstick in couple</b>

<b>DURATION</b>	30 minutes
<b>DESCRIPTION</b>	<p><b>Setting:</b> before the activity it's very important to prepare the setting and the space outdoor. The path should be filled with different obstacles so that each couple will face a series of challenges to fulfil the task.</p> <p>Participants are divided in couples and each participant receives two chopsticks. The couples are in line, spread all along the path. The first couple in the line receives a can and while it is kept in equilibrium using only the chopstick, they have to take it to the next couple. In order to do that they have, at least, to cross one of the obstacle all along the path. Every time the can falls down, they have to start again. Those who have already fulfilled the task, should follow the other couples and support them.</p> <p><b>NOTE:</b> before to start the activity, trainers can also invent a small story to "accompany" the participants in the activity and create the atmosphere.</p>

<b>TITLE</b>	<b>Team Radar</b>
<b>TOPIC/S</b>	Group Dynamics
<b>AIM</b>	To make participants interact in a funny and stimulating way; to encourage the group dynamics analysis; to reflect about the different roles in a group
<b>TOOL TYPE</b>	Group creation and analysis of the group dynamics

<b>DURATION</b>	45 minutes
<b>DESCRIPTION</b>	<p><b>Setting:</b> for this activity is needed a big outdoor area, e.g. gardens or fields. In four different places are put the totems and on the top of each totem a flag.</p> <p>Participants are divided in four groups, each one is assigned to a trainer who is explaining the task. They have five minutes to look where the totem is and to find their strategy to arrive there, blindfolded, and to bring back the flag.</p> <p><b>NOTE:</b> the activity has a limited time at disposal (approximately 30 minutes). In the case groups will finish earlier, they can be switched, going in another position, with the same task. If the groups won't finish on time, the activity is stopped when the time it's over.</p>

<b>TITLE</b>	<b>Spider Net</b>
<b>TOPIC/S</b>	Cooperation, participation, group dynamics
<b>AIM</b>	To make participants interact in a funny and stimulating way; to encourage the group dynamics analysis; to reflect about the different roles in the group
<b>TOOL TYPE</b>	Team building - Outdoor Activity
<b>MATERIAL</b>	Ropes

<b>DESCRIPTION</b>	<p><b>Setting:</b> two spider nets in rope are built outside. In each spider net there should be enough holes for all the group members.</p> <p>All the participants have to cross the spider net without touching it. Each group receives "3 lives" and each time they touch the rope they lose one. In the case that the "3 lives" are used, the whole group should start again to cross the spider net.</p> <p><b>NOTE:</b> after a participant crossed by entering in one hole, it's not possible for the others participants to use it any more.</p>

<b>TITLE</b>	<b>Chocolate River</b>
<b>TOPIC/S</b>	Cooperation, communication, active listening

<b>AIM</b>	Team building activity
<b>TOOL TYPE</b>	To make participants experience group cooperation, active listening and different ways to communicate
<b>MATERIAL</b>	Sheets of paper A4, ropes
<b>DURATION</b>	80 minutes
<b>DESCRIPTION</b>	<p><b>Setting:</b> lay two ropes on the ground parallel to each other, about 20 feet apart.</p> <p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> participants have to line up on one side of the rope, and they are informed that they are looking at a giant hot chocolate river. They must get their entire team across the hot chocolate river, but it is too hot to swim across, and too deep to walk across. Obviously, they cannot walk around the river, since it does not end just because the ropes do. The only way to get across is by using the large, fluffy marshmallows that you provide (such as carpet squares, poly spots, paper plates or an A4 paper). Give participants about eight or nine pieces of paper, so that they have enough to get across with one or two left over.</p> <p><b>Step 2.</b> advise the group that this challenge isn't about physical abilities, but rather it is about communication. Unfortunately, the stream in the river is so strong that it actually sweeps the marshmallows away if someone is not holding them down (with a hand, foot, or other safe appendage). Also, the marshmallows swell up once they are placed in the river, and they become too heavy to move again, so they must remain where they are placed.</p> <p><b>Step 3.</b> participants start to play and they have to find their way to arrive on the other side of the river.</p> <p>It follows a debriefing about all the previous team building activities. Possible topics to explore during the debriefing:</p> <ul style="list-style-type: none"> <li>• Team Responsibility: did it matter if only a few of you made it across the river?</li> <li>• Communication: the importance of checking on the person behind you before stepping into the next marshmallow;</li> <li>• Individual Strengths and Weaknesses.</li> </ul>

<b>TITLE</b>	<b>Moving debate in 3 areas</b>
<b>TOPIC/S</b>	Formal, Non formal and Informal
<b>AIM</b>	To reflect on the differences between formal, non formal and informal and to go in depth on the links and the inter-relation among the three
<b>TOOL TYPE</b>	Moving Debate
<b>MATERIAL</b>	Scotch tape, paper, marker
<b>DURATION</b>	60 minutes
<b>DESCRIPTION</b>	<p><b>Setting:</b> the facilitator has to draw on the floor with the scotch tape a big circle, divided in 3 parts. In each section has to put an A4, in one written "Formal", in one "Non formal" and in the last "Informal".</p> <p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> the activity starts with participants standing in the middle of the circle. The facilitator starts reading the first statement (see Handout below) and asks participants to take position in one of the sections of the circle. The facilitator asks to people placed in different position to comment and to explain why they took the position in the space.</p> <p><b>IMPORTANT RULES:</b></p> <ul style="list-style-type: none"> <li>• participants cannot remain the middle of the circle, but have to take a position;</li> <li>• they can choose a position in the space, accordingly to the level of agreement and/or disagreement with the statement;</li> <li>• the facilitator should read the statements as much clearly as possible. Before to ask the group to take a position, the facilitator has to be sure that everybody has understood the statement.</li> </ul> <p><b>NOTE:</b> the questions in the Handout are intentionally contradictory, indeed the aim is not just to reflect on formal, non formal and informal but to go in depth on the links and the inter-relation among the three.</p> <p><b>Step 2.</b> at the end of the activity is allocated extra time to answer questions, if there are, and clarify the difference between formal, non formal and informal.</p> <p><b>See Handout below.</b></p>

## GENDER 1<sup>ST</sup> STEP

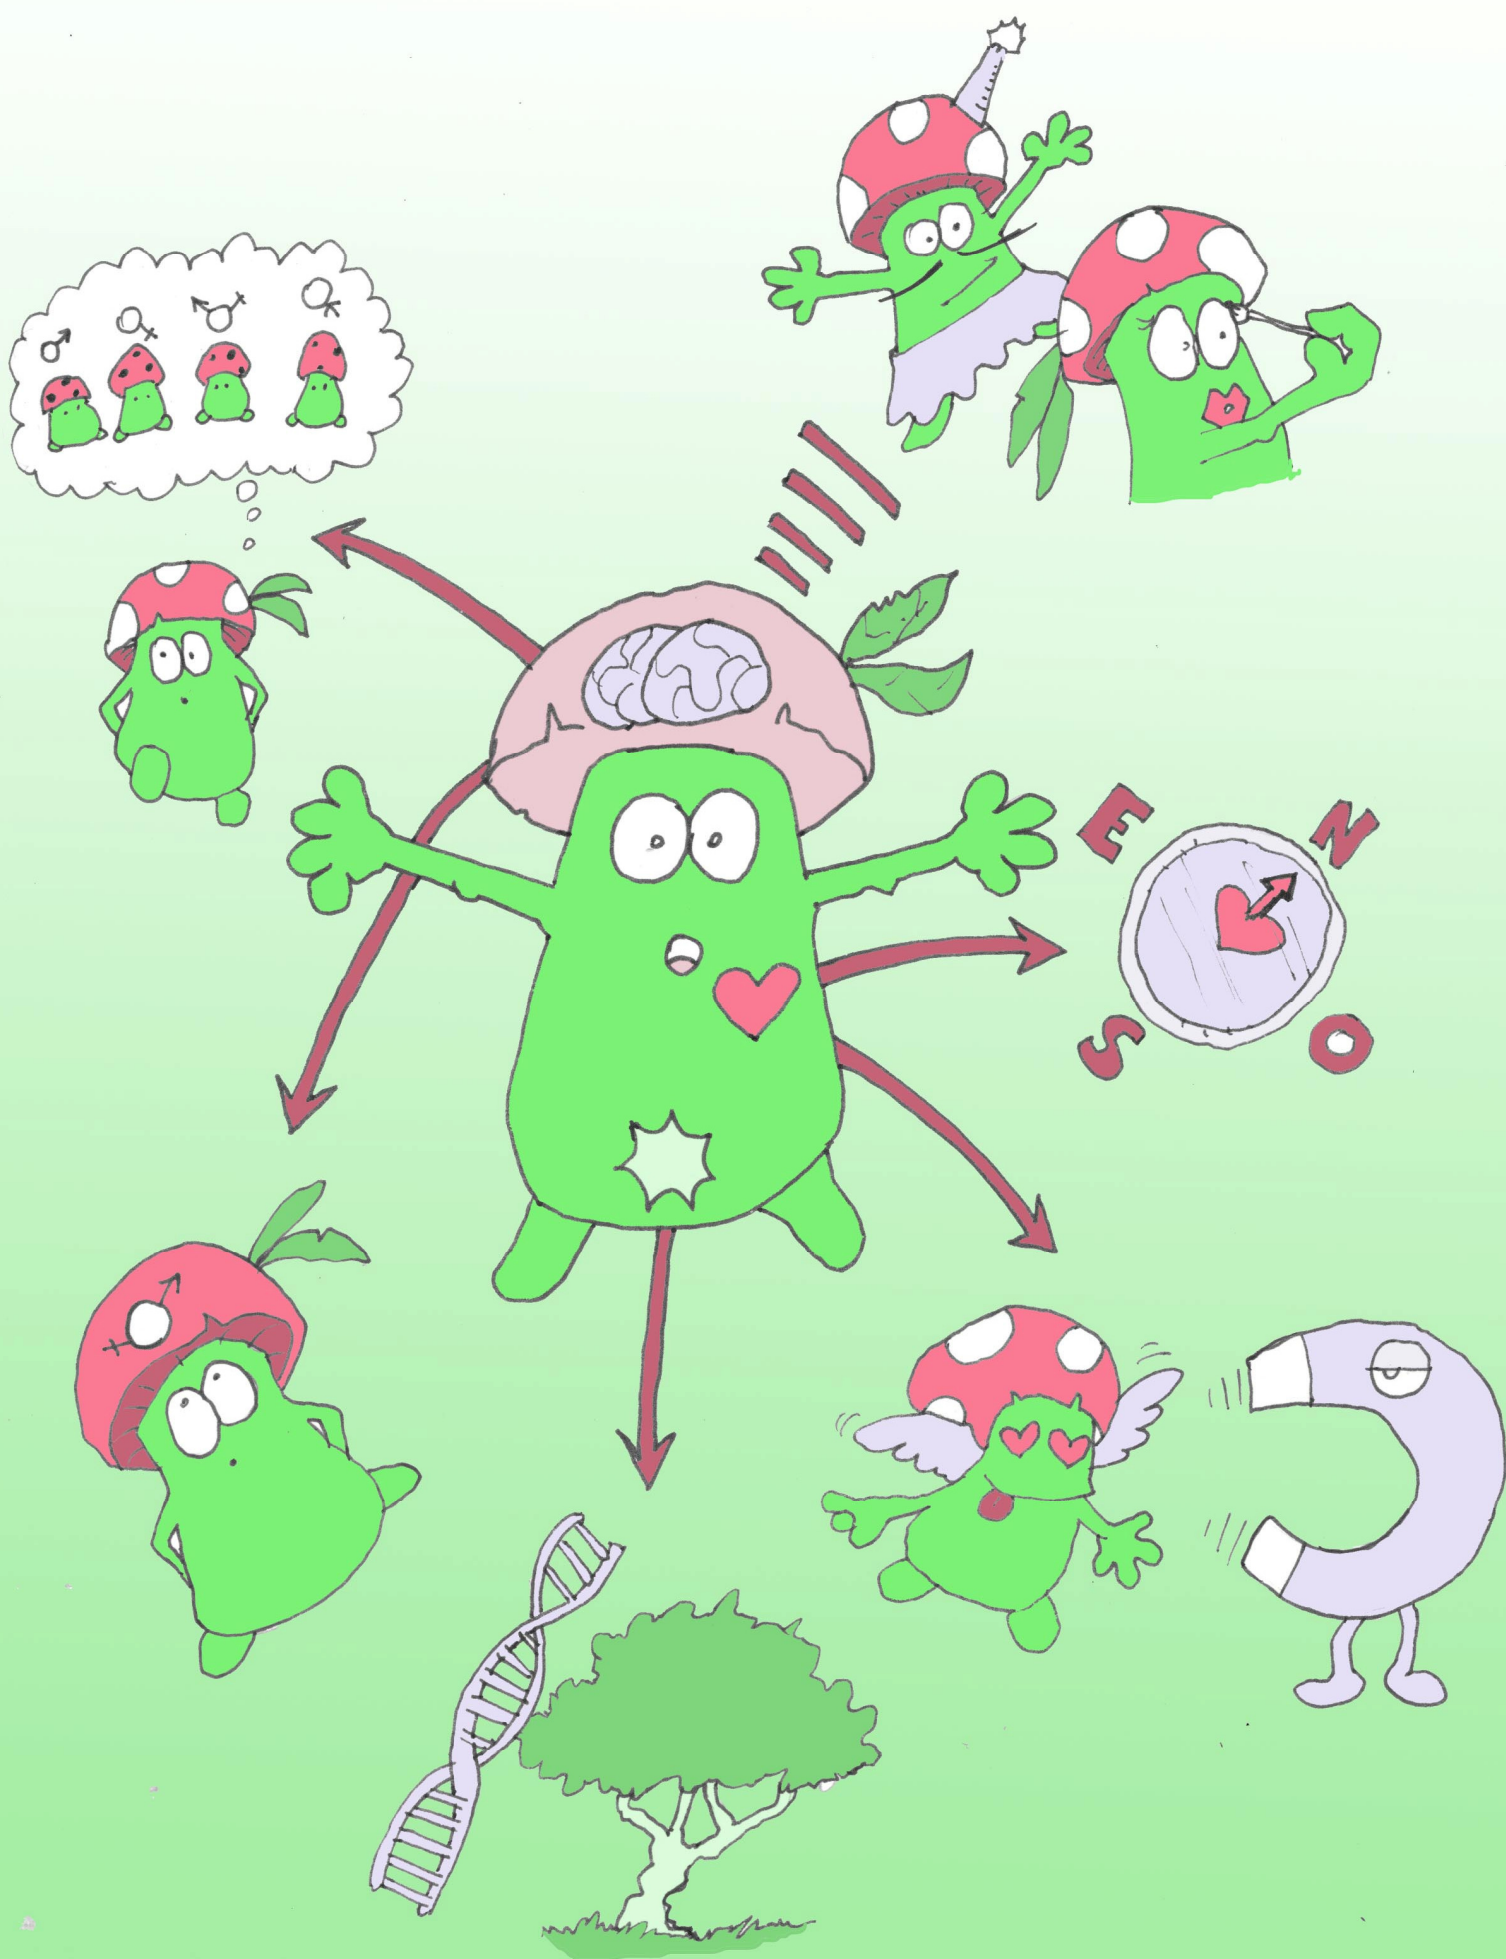

# INTRODUCTION ON GENDER

<b>TITLE</b>	<b>Gender “definitions”</b>
<b>TOPIC/S</b>	Gender
<b>AIM</b>	To encourage participants to define what “gender” is for them and afterwards to create a common definition, using drawing
<b>TOOL TYPE</b>	Work in group and plenary
<b>MATERIAL</b>	Flipcharts, colour, markers
<b>DURATION</b>	120 minutes
<b>DESCRIPTION</b>	<p><b>Setting:</b> before to start the activity, trainers should draw the five flipcharts: in the middle of the flipchart there is a circle (for the common drawing) while on the external part is divided in different parts not symmetric, one for each group member. Five tables with chairs should be arranged and in the table is left the flipchart with different colours and markers.</p> <p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> five groups are created, and each group is asked to join a table. On the table there is the flipchart and they have to fulfil the following task: they have to take some time and to think about what “gender” is for them and then they have to draw it (also key words are fine) in their part of flipchart.</p> <p><b>Step 2.</b> after all the group members finished, the second task is assigned: they have to present to the other group members their drawing, explaining what “gender” is for them.</p> <p><b>Step 3.</b> after the sharing, participants of each group should discuss and agree on a common definition/representation of what “gender” is for them and they have to draw it on the flipchart.</p> <p><b>Step 4.</b> it follows a presentation in plenary of the different group` drawings.</p>

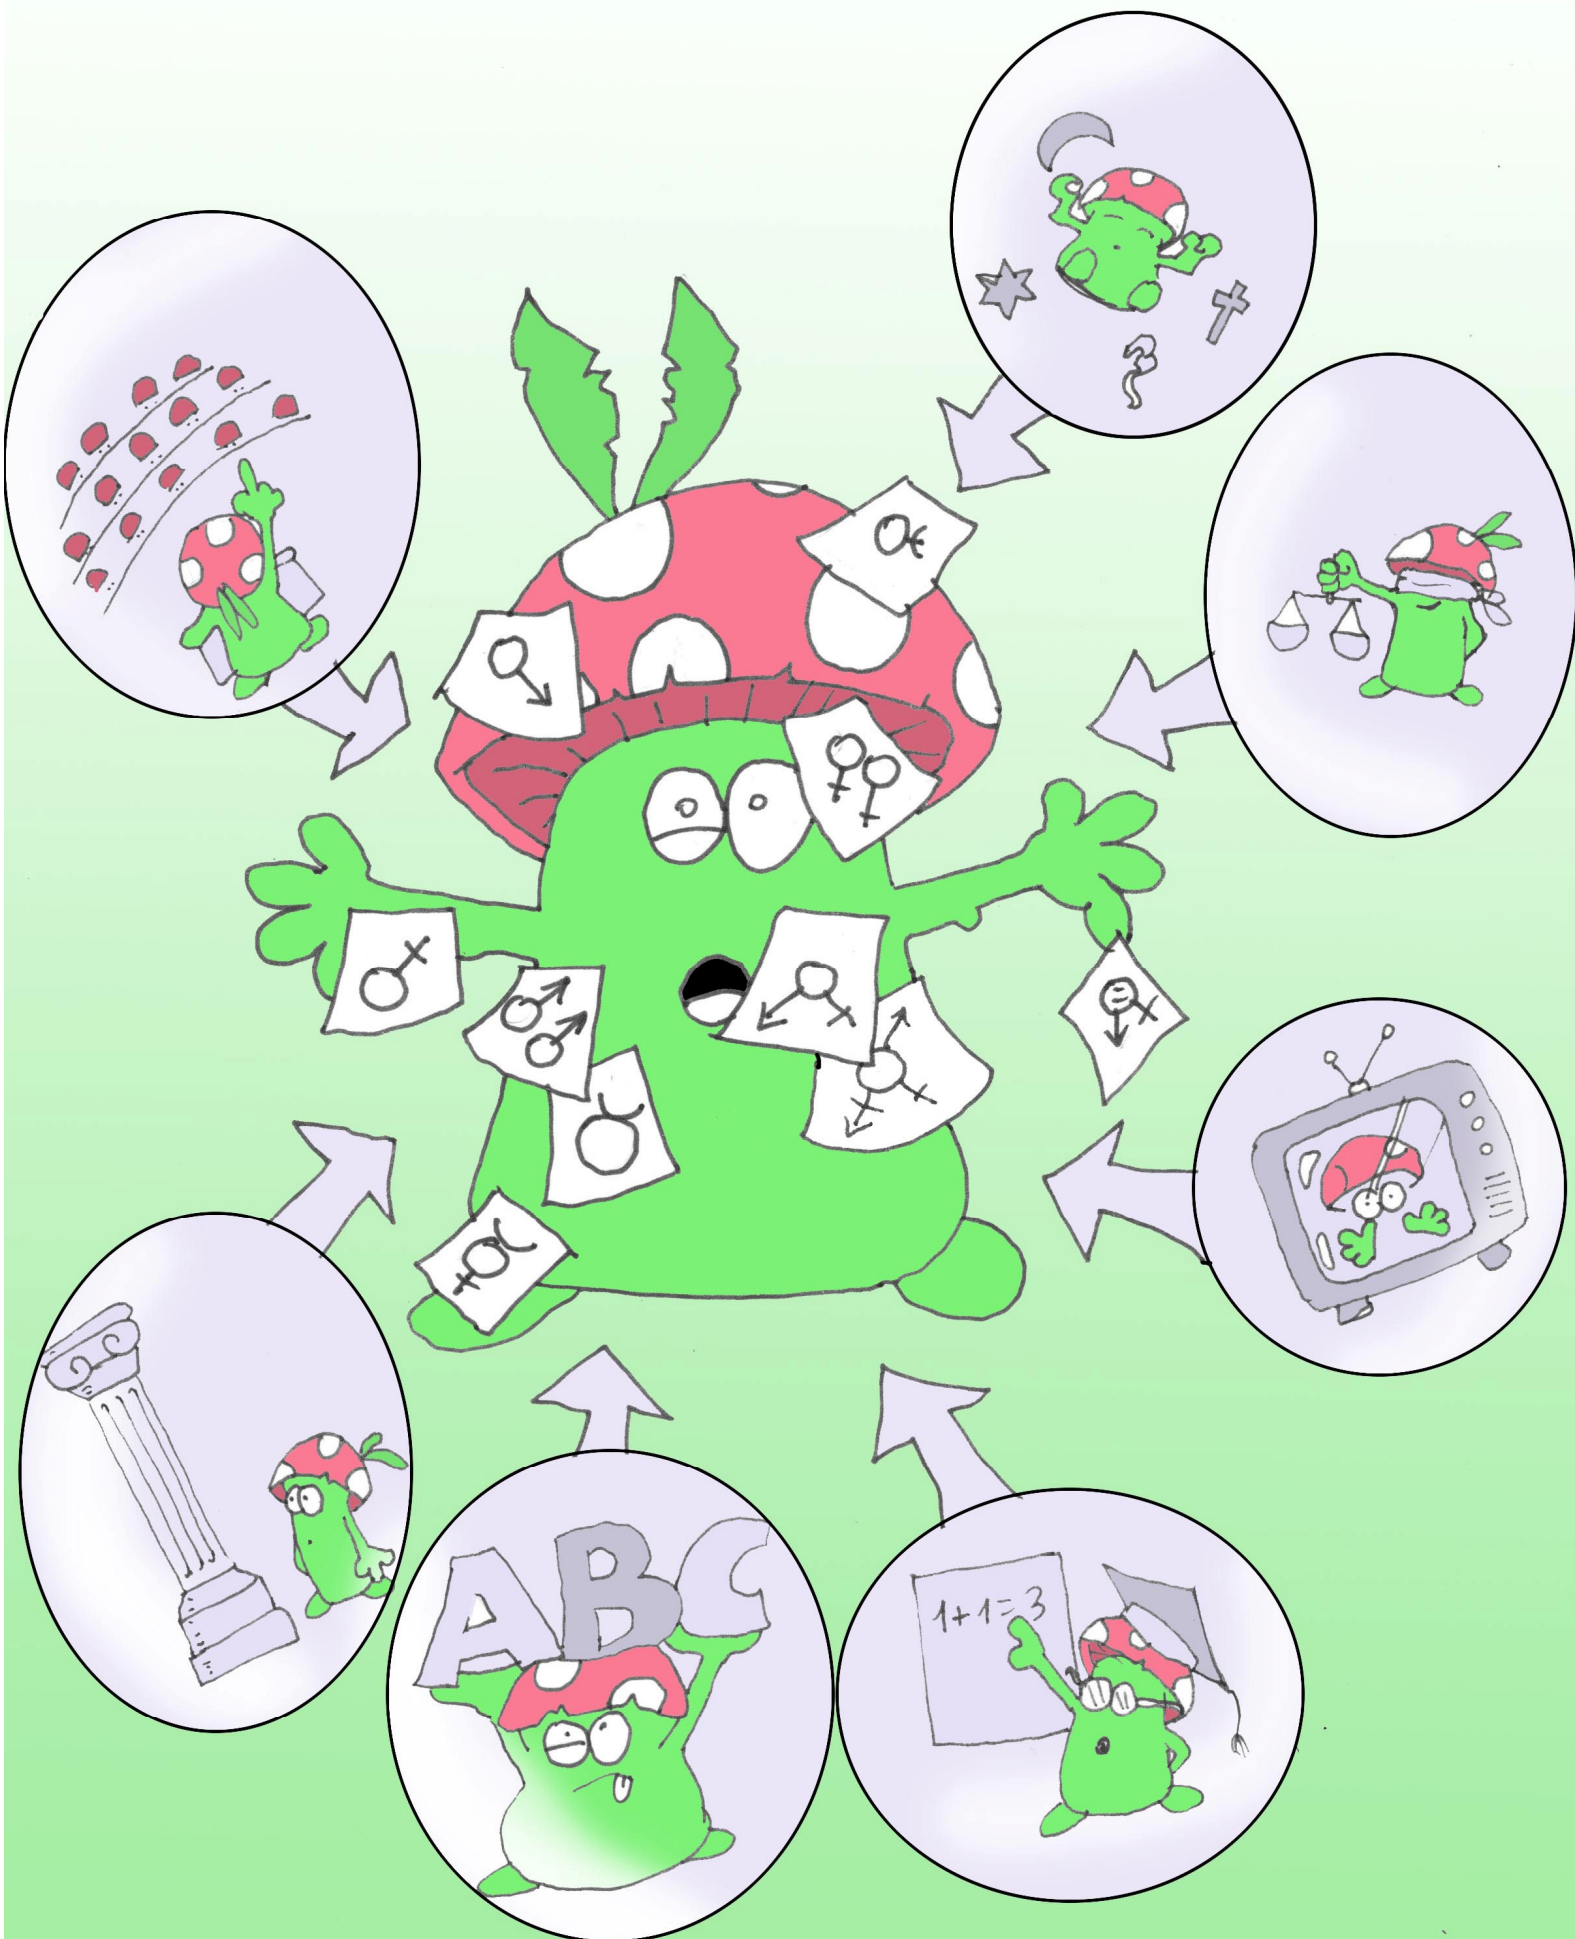

<b>TITLE</b>	<b>More inside “gender”</b>
<b>TOPIC/S</b>	Gender
<b>AIM</b>	To reflect on different gender-sensitive aspects and to go more in depth inside gender issues

<b>TOOL TYPE</b>	Work in group
<b>MATERIAL</b>	Tables, chairs, flipcharts, markers and pens
<b>DURATION</b>	160 minutes
<b>DESCRIPTION</b>	<p><b>Setting:</b> before to start the activity, the workshop room has to be set as follows: five tables with chairs on the opposite sides of the room and, in the middle 5 chairs in circle.</p> <p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> five groups are created, join their table and the first question is handed out. The group has 20 minutes to discuss the question and one of the group members has to keep note.  <b>Question 1:</b> <i>What are the main differences between: gender identity, gender expression, sexual orientation, biological sex?</i>  <b>See Outcome 1 below.</b></p> <p><b>Step 2.</b> in each group one member is chosen as reporter and has to join one of the chair in circle. Once all the reporters are there they have 5 minutes each to explain the main elements discussed within the group.  <b>NOTE:</b> is something has been already said it's better to avoid repetitions and to say only elements not previously mentioned.</p> <p><b>Step 3.</b> back in groups, the second question is handed out and the group has 20 minutes to discuss the question and one of the group members (a different person) has to keep note.  <b>Question 2.</b> <i>In your opinion, what are the main reasons behind gender issues in your country?</i>  <b>See Outcome 2 below.</b></p> <p><b>Step 4.</b> in each group one member is chosen as reporter and has to join one of the chair in circle. Once all the reporters are there they have 5 minutes each to explain the main elements discussed within the group.</p> <p><b>Step 5.</b> back in groups, the third question is handed out and the group has 20 minutes to discuss the question and one of the group members (a different person) has to keep note.  <b>Question 3.</b> <i>What is the difference between gender equality and gender equity (according to you)?</i>  <b>See Outcome 3 below.</b></p> <p><b>Step 6.</b> in each group one member is chosen as reporter and has to join one of the chair in circle. Once all the reporters are there they have 5 minutes each to explain the main elements discussed within the group.</p>

<b>TITLE</b>	<b>2 true and 1 false statements</b>
<b>TOPIC/S</b>	First steps in stereotypes
<b>AIM</b>	To energize the group and, in the same time, to make the first small step on stereotypes, linking it with the upcoming session
<b>TOOL TYPE</b>	Work in group
<b>MATERIAL</b>	A4, pens, scotch tape

Then the paper should be stuck on the chest with a scotch tape. Participants should walk in the space and meet someone else, read the statements and try to guess what is the true and the false one. The same should be done by the other people.</p> <p>The activity proceeds for a while, it's not compulsory to meet everybody, but more people we meet and better it is. After that, all the participants come back to the circle and, one by one, they go to the middle, presenting the three statements and explaining to the others which one are true and which false.</p>

# GENDER ROLE MODELS

<b>ITILE</b>	<b>One Step Forward</b>
<b>TOPIC/S</b>	Prejudices and Stereotypes
<b>AIM</b>	To analyse the stereotypes and the prejudices we might use in an unconscious way in our daily life, to “wear the shoes” of other people we might tend to judge or to “put into boxes”
<b>TOOL TYPE</b>	Role play game
<b>MATERIAL</b>	A big space, soft music and the Handout cards
<b>DURATION</b>	80 minutes
<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> participants are standing on a long line. Trainers hand out a role to each participant, each person has to carefully read the character's description, take his/her own time and try to think and act as the person described.</p> <p><b>NOTE:</b> the activity is centred on the role play game method. For this reason, it's important to create a soft atmosphere to enforce the concentration and the action of wearing the shoes of someone else. To facilitate the process a set of key questions should be asked, these questions should not be answered since are just “food for thought” to facilitate the process. The questions should be about the daily life of the person, what she/he can do or not, he/she use to do, the social relations and the work/absence of work.</p> <p><b>Step 2.</b> participants are explained that they have to take one step forward for each situation they feel their character could manage easily. They have to stay frozen in the same position if it is not possible for the character to do the action. A set of different statements is read and participants should move forward or stay still.</p> <p><b>Step 3.</b> back in plenary, the trainer runs the analysis of the activity and the debriefing.</p> <p>Key questions for the debriefing:</p> <ul style="list-style-type: none"> <li>• How did you feel?</li> <li>• Which was your character?</li> <li>• Was it easy to represent your character?</li> <li>• Why did you act in this way?</li> <li>• What was the gender of your character?</li> <li>• Why did you choose this gender? (if gender was not specified in the card)</li> <li>• Do you think to be excluded from society in some way?</li> <li>• Do you think you applied stereotypes while representing your character?</li> </ul>

	<p>It follows a debriefing about <b>STEREOTYPES</b> and <b>PREJUDICES</b> in general and specifically about the gender-related prejudices.</p> <p><b>See Handout below.</b></p>

<b>AIM</b>	To create the space for further deepening some gender sensitive issues and to better share the country situation concerning different gender aspects
<b>TOOL TYPE</b>	Work in group
<b>MATERIAL</b>	/
<b>DURATION</b>	90 minutes
<b>DESCRIPTION</b>	<p><b>Setting:</b> before to start the activity, the workshop room has to be set as follows: six different spaces with chairs on the opposite sides of the room.</p> <p>Participants are divided in national teams and the activity is explained. There will be allocated 15 minutes each rotation and in each rotation participants can move from their national table to other national tables. During the rotation at least two national group members have to remain on their table to welcome the other participants.</p> <p>The group members, while rotating, have to join other national groups and can ask specific questions to deepen some gender-sensitive issues and to better understand the country situation concerning different gender-sensitive aspects.</p>

# CHAPTER 3

## GENDER 2<sup>ND</sup> STEP

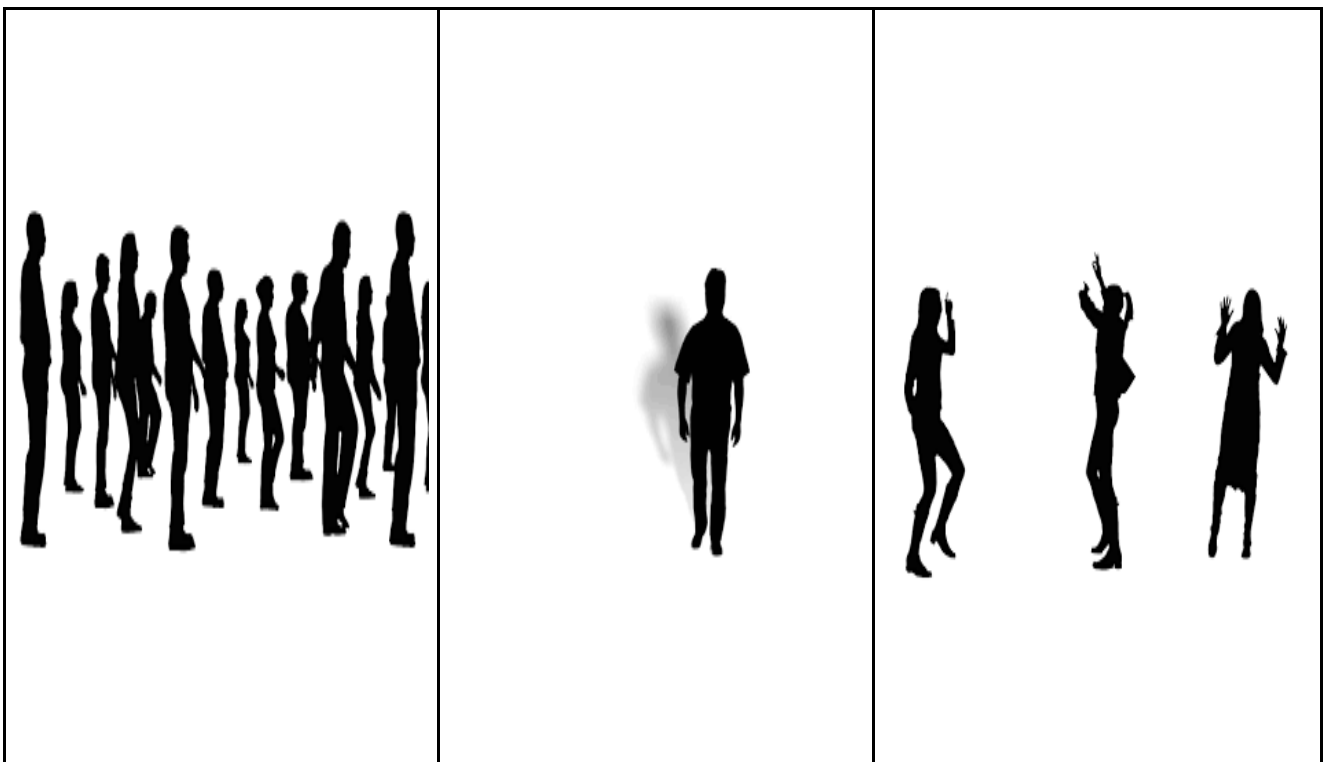

# GENDER-BASED CONFLICTS

<b>TITLE</b>	<b>Sharing personal stories</b>
<b>TOPIC/S</b>	Gender based conflicts
<b>AIM</b>	To make participants reflect on their personal gender related conflicts they lived or experimented in their life and to give them the chance to share them within the group.
<b>TOOL TYPE</b>	Individual work and work in small groups
<b>MATERIAL</b>	Chairs, soft music
<b>DURATION</b>	80/90 minutes
<b>DESCRIPTION</b>	<p><b>Setting:</b> in the workshop rooms has to be created a “soft” environment, there are chairs without order (one for participant) put in the space and there is a soft, intimate music. No light in the room.</p> <p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> participants are entering the room one by one and are explained that can freely walk in the space and then, when feels comfortable in a specific point, they can sit on the nearest chair.</p> <p><b>Step 2.</b> participants are asked to close their eyes. Then a couple of trainers create the atmosphere whispering in the participants hears, and then raising the tune of the voice, key words evocating conflicts, violence, stereotypes, prejudices and some of the key words referred to the work they did in the previous day.</p> <p><b>Step 3.</b> when the key words are whispered, one of the trainer asks participants to think about a gender related conflict they lived in their life.  <b>NOTE:</b> the work it's about the personal gender related conflict/s participants lived in their life. For this reason, <b>it's fundamental to create the proper and “safe” atmosphere, where to feel protected.</b></p> <p><b>Step 4.</b> four groups are created and in each one, participants should share their story.  <b>NOTE:</b> if a participant is not feeling comfortable sharing his/her personal story, he/she can decide not to do it and only to listen at the others.</p> <p><b>Step 5.</b> in each group one story has to be selected. It's important to underline that “no stories are the best or the worst”, the story should be selected accordingly to the fact the group members think it is the most representative of gender related conflicts.  <b>NOTE:</b> this activity is preparatory for the next one “Strip cartoon”.</p>

<b>TITLE</b>	<b>Strip cartoon</b>
<b>TOPIC/S</b>	Conflict analysis
<b>AIM</b>	To make participants run a detailed conflict analysis of the different conflict situations identified by each group (setting, type of conflict, actors)
<b>TOOL TYPE</b>	Work in group
<b>MATERIAL</b>	/
<b>DURATION</b>	100 minutes
<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> is provided a brief explanation of what living pictures are and how the representation through strip cartoons works.  <b>NOTE:</b> for a clearer understanding of the technique, it's better to draw it on a flipchart. See Handout below.</p> <p><b>Step 2.</b> participants are left some time to be back to the story they chose in each group and to find a way to represent it using the technique of the living pictures and strip cartoons.</p> <p><b>Step 3.</b> each group represents the three frames on stage.</p> <p><b>Step 4:</b> after each representation the group remains on the stage and it's run the analysis of the situation with a specific focus on: "ACTORS" and "CAUSES".</p> <p><b>NOTE:</b> in this phase of the activity, each group should only create the conflict case and identify the actors and the causes, THEY SHOULD NOT think about the possible solutions!!!!</p> <p>At the end of the debriefing is presented the <b>CONFLICTS EXPLOSION MODEL</b>.</p> <p><b>See Handout below.</b></p>

# CONFLICTS TRANSFORMATION

<b>TITLE</b>	<b>Social Theatre</b>
<b>TOPIC/S</b>	Conflicts management
<b>AIM</b>	To make participants work on the possible and multiple ways to manage and, in some cases, solve conflicts
<b>TOOL TYPE</b>	Theatre activity
<b>MATERIAL</b>	/
<b>DURATION</b>	120 minutes
<b>DESCRIPTION</b>	<p>The activity is run in two different rounds: in each round a different conflict story is analysed.</p> <p><b>HOW TO MANAGE THE TECHNIQUE:</b></p> <p><b>Step 1.1 First story</b>  the pool of trainers, as actors, is representing the first story in a theatrical way. The representation should stop on the conflict explosion.  <b>NOTE:</b> the story characters have to be well defined, there should be one representing "the oppressor", another one representing "the oppressed" and other secondary characters. One trainer plays the role of the Joker, who can intervene to manage the representation, can stop it or give the floor.</p> <p><b>Step 1.2</b> whoever of the group of participants can enter the stage and take the role of one of the secondary characters. Once on the stage he/she should try to act in the way he/she thinks better to manage the conflict in a more constructive way. It's not possible to take the character of the oppressor.</p> <p>After each representation, all the actors are remaining on the stage and the Joker asks:</p> <ul style="list-style-type: none"> <li>• to the spectators: what has changed?</li> <li>• to the secondary actors: how do you feel and what has changed?</li> <li>• to the oppressed: how do you feel and what has changed?</li> <li>• to the oppressor: how do you feel and what has changed?</li> </ul> <p><b>Step 2.1 Second story</b>  the pool of trainers, as actors, is representing the second story in a theatrical way. The representation should stop on the conflict explosion.  <b>NOTE:</b> as before, the story characters have to be well defined, there should be one representing "the oppressor", another one representing "the oppressed" and other characters. Still the Joker can intervene to manage the representation, can stop it or give the floor.</p>

	<p><b>Step 2.2</b> whoever of the group of participants can enter the stage and take the role of the oppressed or of one of the secondary characters. Once on the stage he/she should try to act in the way he/she thinks better to manage the conflict in a more constructive way. It's not possible to take the character or the oppressor.</p> <p>There is also the possibility that two participants are entering the stage, one taking the role of the oppressed and the other taking the role of one of the secondary characters.</p> <p>After each representation, all the actors are remaining on the stage and the Joker asks:</p> <ul style="list-style-type: none"> <li>• to the spectators: what has changed?</li> <li>• to the secondary actors: how do you feel and what has changed?</li> <li>• to the oppressed: how do you feel and what has changed?</li> <li>• to the oppressor: how do you feel and what has changed?</li> </ul> <p><b>Step 3.</b> it follows in plenary a general debriefing on the activity, on the different ways to manage a conflict and on the methodology used.</p> <p><b>See Handout below.</b></p>

# HANDOUT\_HODGSON MODEL

# HANDOUT\_HODGSON THEORY

## DIFFERENT STYLES IN MANAGING CONFLICTS

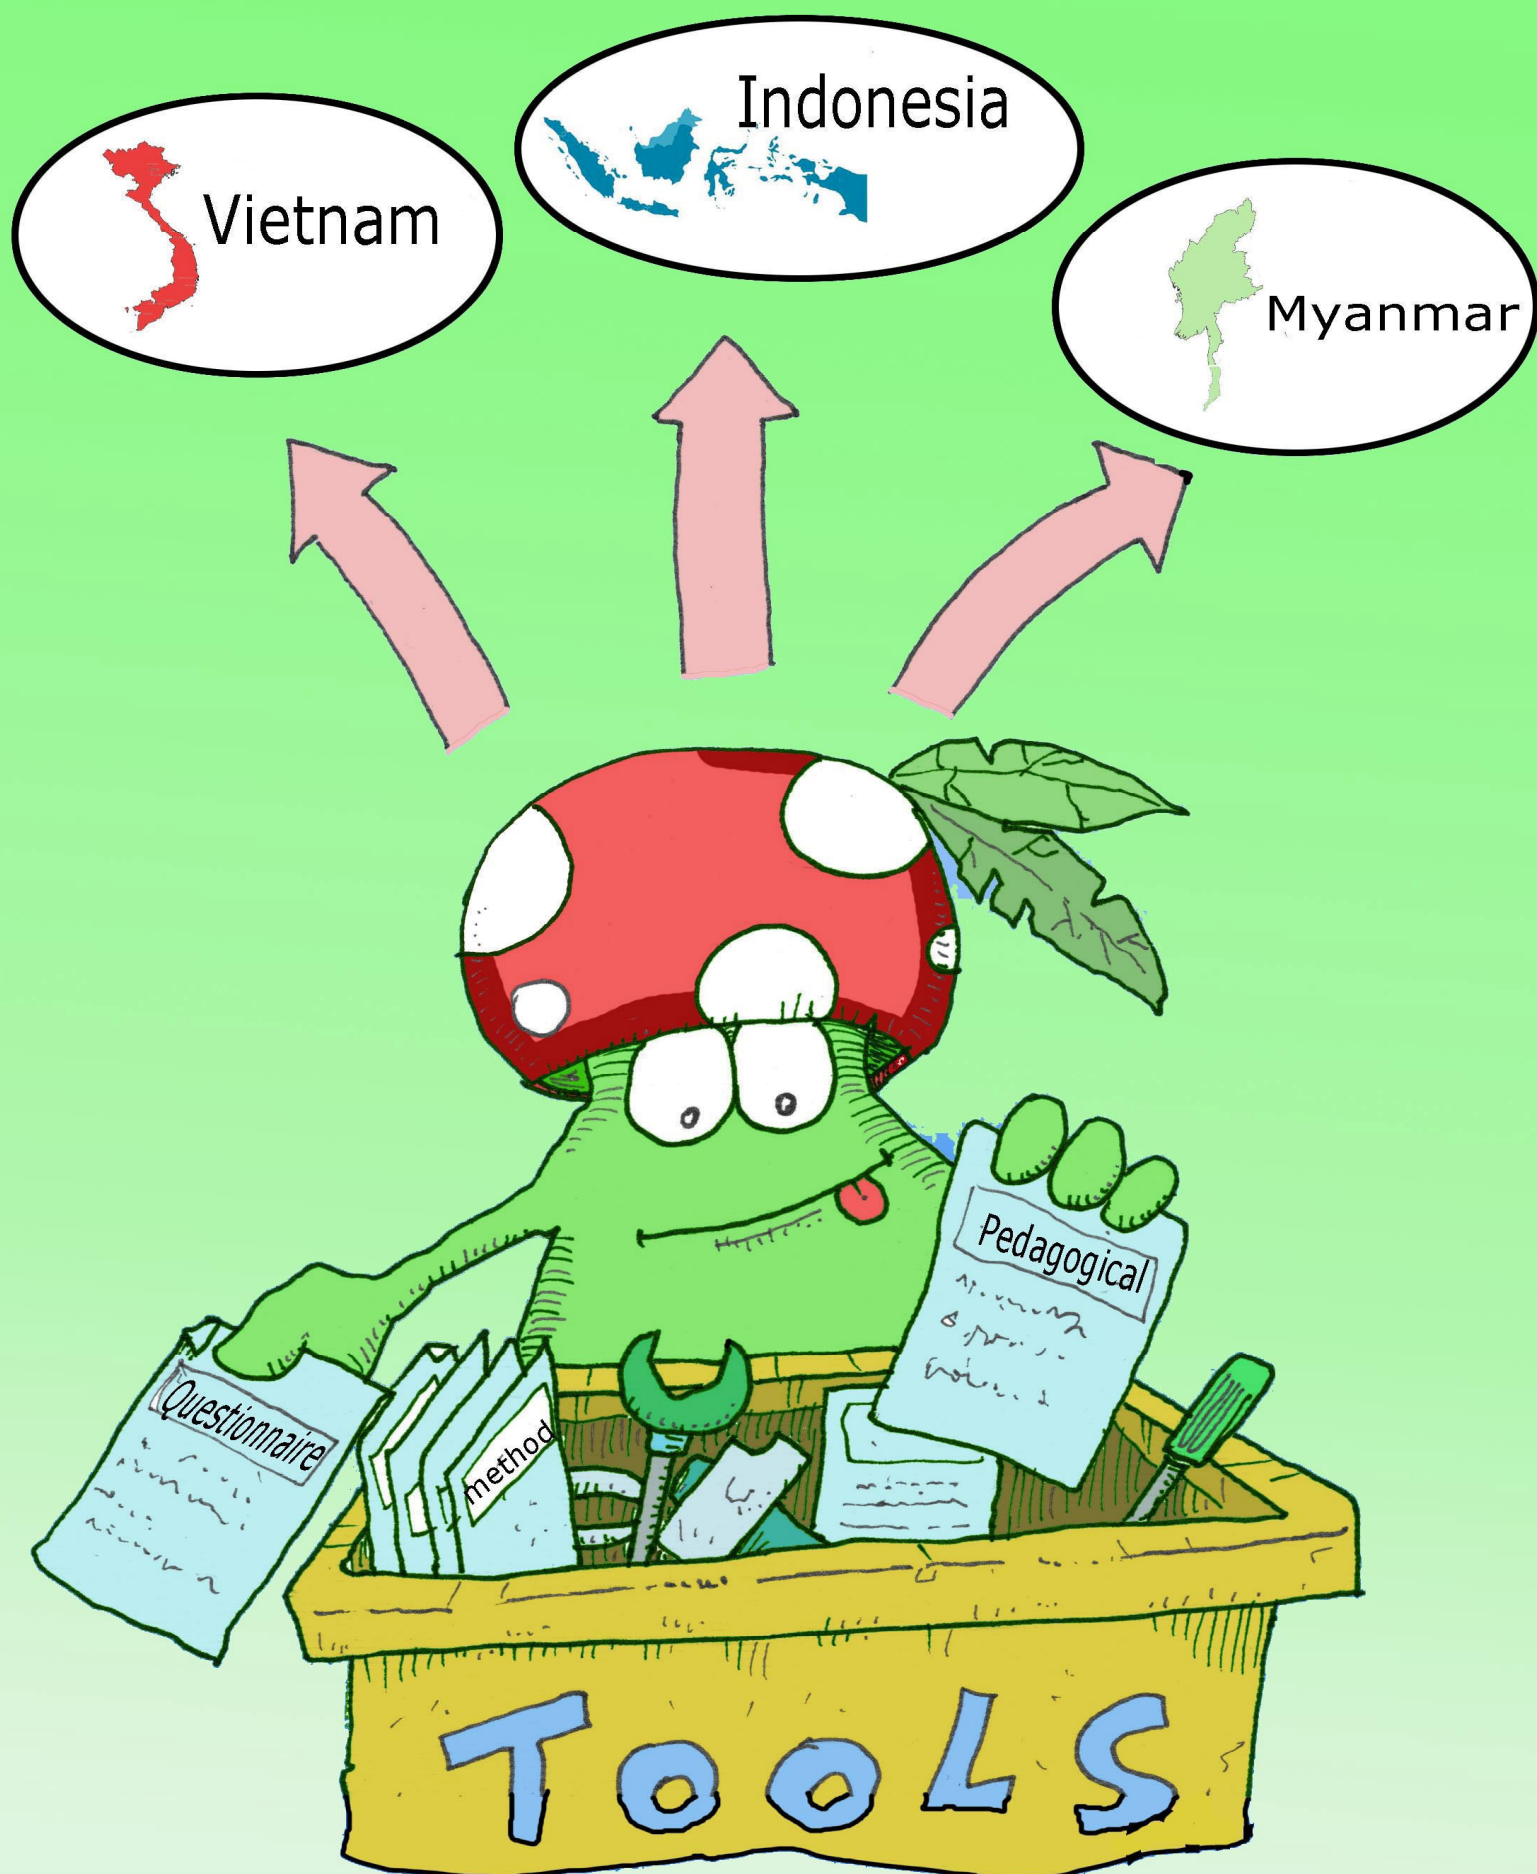

Success in terms of conflict management requires from the different actors to make enlightened decisions. The list below can help you decide what kind of conflict resolution you could use (or you tend to use) in accordance with a given situation.

Nevertheless, the list specifies clearly that it is not possible to always have the same answer to each and every issue. For instance, if you opt for a cooperative way to proceed using the face to face, you might lose your time and your energy if the matter is to handle small problems that would have needed another approach. At the same time, if you always use approaches of non-confrontation and non-cooperation, you will never get what you and the other actors within the conflict want, but most of all, what they need.

<b>COLLABORATION: a cooperative face to face style</b>
Adapted when both sides want to find a solution and when they have to work together to set up an answer. It is a way to proceed close to the win-win strategy in negotiation
<b>CONTESTATION: a non-cooperative face to face style</b>
Adapted when quick and decisive actions are necessary (an emergency for example)
<b>ACCEPTANCE: a cooperative style, without any face to face</b>
Adapted when you notice that you have made a mistake, when the issue is less important for you or in the case where you want to make a good impression on the other side's and/or on the mediators
<b>AVOIDANCE: a non-cooperative style, without any face to face</b>
Adapted when the issue is without any importance or when, even if the matter is relevant for you, you "escape" the possibility to approach it. You do not have much power and you do not see any possibility to change the situation
<b>COMPROMISE: a style at the crossroad between the others and which implies all of their elements</b>
This style is moderately assertive and moderately cooperative: the goal is to find middle ground. The compromising style is used with issues of moderate importance and/or when both parties are equally powerful and/or equally committed to opposing views

### YOUTH MEETINGS

# QUESTIONNAIRE

<b>TITLE</b>	<b>Questionnaire preparation</b>
<b>TOPIC/S</b>	Youth Meetings
<b>AIM</b>	To prepare in a bottom up approach the questionnaire that will be handed out during the Youth Meetings
<b>TOOL TYPE</b>	Work in group
<b>MATERIAL</b>	Flipcharts, paper, markers, post-it
<b>DURATION</b>	180 minutes
<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> the activity starts in plenary with a brainstorming to define, in a collective way, the main thematic chapters of the questionnaire.  <b>NOTE:</b> in this stage the facilitator should give the group the freedom to express their point of view and, in the same time, should facilitate the creation of the macro-topics (e.g. if there are two very similar, he/she can propose to merge them).</p> <p><b>Step 2.</b> once the main macro-topic/thematic chapters of the questionnaire are defined, participants are asked to group themselves accordingly to the thematic they are interested to work on.  The thematic chapters appeared during this activity are: culture, religion, education, politics and law, health, media.  <b>NOTE:</b> participants are free to choose their group, but it should be posed, as basic criteria for the division, the balance of nationality.</p> <p><b>Step 3.</b> in each group, members have to think about possible questions related to the thematic.  <b>NOTE:</b> a maximum of 3-4 questions. The questions should be "open" and shaped with the aim to detect gender-sensitive issues in the different countries.</p> <p><b>Step 4.</b> It starts the rotation, where some group members can move to other groups to listen at the questions created and to give feedbacks, following the methodology explained below, called the Ballint Group.  <b>NOTE:</b> at least one group member should remain in the thematic table.</p> <p><b>BALLINT GROUP METHODOLOGY</b></p> <ul style="list-style-type: none"> <li>• <b>step a.</b> (10 minutes): in each group, roles have to be defined: facilitator, time keeper and the reporter (that usually becomes also the spokesperson)</li> <li>• <b>step b.</b> (5 minutes): the spokesperson presents to the newcomers the questions defined by his/her group members, explaining also the logic behind and why the questions have been shaped in that way. In</li> </ul>

	<p>this stage the newcomers cannot speak.</p> <ul style="list-style-type: none"> <li>• <b>step c.</b> (5 minutes): the newcomers can ask questions to the spokesperson to clarify or to better understand them so to be able to run a deep analysis of the questions.</li> <li>• <b>step d.</b> (30 minutes): the spokesperson has to remain in silence and take only note of what has been said. The newcomers discuss among themselves what to modify, change and upgrade in the questions. At the end of this stage the questions are re-phrased.</li> <li>• <b>Step e.</b> (5 minutes): the spokesperson can take the floor again while the new comers remain in silence. The spokesperson gives a feedback on the process of the questions reformulation and on the final outcomes of the work.</li> </ul> <p><b>Step 5.</b> once this part it's over, the new comers are back to their initial group where it's given a collective feedback concerning the final outline of the questions (accordingly to the comments and suggestions previously received). Other 15 minutes are left to decide if to accept the new questions outline, where some have been re-phrased.</p> <p><b>Step 6.</b> it follows the plenary presentation of all the questions. For the questions created and that will be used during the Youth Meetings, see the final version below.</p> <p><b>See Handout below.</b></p>

<b>TOPIC/S</b>	Pedagogical approaches to be taken in account while organizing and implementing the Youth Meetings
<b>AIM</b>	To learn/refresh different pedagogical approaches, useful for the Youth Meetings
<b>TOOL TYPE</b>	Work in group
<b>MATERIAL</b>	Flipcharts, paper, markers, post-it
<b>DURATION</b>	90 minutes in total = 10 minutes for the explanation + 80 minutes for the activity (each round should last 20 minutes)
<b>DESCRIPTION</b>	<p><b>Setting:</b> 4 different stations should be created, representing:</p> <ul style="list-style-type: none"> <li>• <b>target group needs</b></li> <li>• <b>group dynamics</b></li> <li>• <b>learning styles</b></li> <li>• <b>learning objectives and evaluation</b></li> </ul> <p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> the activity is presented and “The Master of Time” divides participants in 4 groups, explaining the rules of the activity.</p> <p><b>Step 2.</b> each team has to move from one station to another, gathering information about each station topic (they have to stay 20 minutes in each station). The “The Master of Time” keeps the time and call the rotation.</p> <p><b>NOTE:</b> in order to speed up a bit the activity the rotation can be different: each group remains in the same station (place) and the facilitators are the ones rotating.</p>

<b>TITLE</b>	<b>Draw the “perfect” facilitator</b>
<b>TOPIC/S</b>	Role and qualities of the facilitator
<b>AIM</b>	Work in group and plenary presentation
<b>TOOL TYPE</b>	To reflect on the role a facilitator should have and on his/her qualities

<b>MATERIAL</b>	Handout with the facilitator model
<b>DURATION</b>	45 minutes
<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> participants are divided in groups (approximately 5 people each) and receive the Handout with the facilitator model. They have to discuss within the group about the facilitator's role, skills and qualities and they have to give a graphic representation of the main outcomes. Furthermore, they have to include at the very bottom of the drawing what a facilitator should not do.</p> <p><b>Step 2.</b> each group has a maximum amount of 5 minutes to present the work in plenary. Then it's left an extra time for questions and clarification requests.</p> <p><b>NOTE:</b> this activity has to be considered preparatory for the "Training in Action".</p>

<b>TITLE</b>	<b>Open space of tools</b>
<b>TOPIC/S</b>	Methods for the Youth Meetings: non formal education methods
<b>AIM</b>	To learn/refresh/share different non formal education working methods that can be used during the Youth Meetings
<b>TOOL TYPE</b>	Work in group
<b>MATERIAL</b>	Flipcharts, paper, markers, post-it
<b>DURATION</b>	90 minutes
<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> in plenary participants are asked to share if they want share some tools they know and they have been using. The facilitator takes notes of the different proposals and two different slots of 45 minutes each are created. During the same slot there are different workshops run simultaneously. Participants have the chance to choose, positioning themselves in the table, to choose the workshop they are interested to join.</p> <p><b>NOTE:</b> the person that proposed the tool has to remain all the time in the workshop to present it to the participants visiting.</p> <p>Below the list of the proposed workshops.</p>

	slot 1	<b>SIMULATION</b>	<b>CHIEF OF POWER</b>	<b>WORLD CAFÉ'</b>	<b>CANADIAN BOX</b>	<b>ROLE PLAY</b>
	slot 2	<b>PLA – PARTIICIPATIV E LEARNING ACTION</b>	<b>DEBATE</b>	<b>FOOT MASSAGE</b>	<b>HIPPO IN A BATH</b>	<b>UNIVERSAL CLAP</b>

**GENERAL REMARK ON THE TECHNIQUE:** this session is based on the technique of the Open Space, which allows participants to discuss about sensitive topics, to share ideas and proposals about future possible actions and projects in the field of gender. During the Open Space different thematic tables (as you can see above) are organized. Participants, following the principles of this technique, are free to move from one to another table accordingly to their interest to work on one or more thematic areas.

In the case of this activity the workshop facilitator assigned to each thematic table is the person who proposed the tool.

In the Open Space Technique, the main **PILLARS** are:

- tools have to be proposed by participants → bottom up approach
- tables are "self-organized" → the participants themselves are the facilitators of the tables
- there is the possibility to move from a table to another table → when the participant feels that the discussion is expired or when is interested to listen other topics, he/she can move forward.

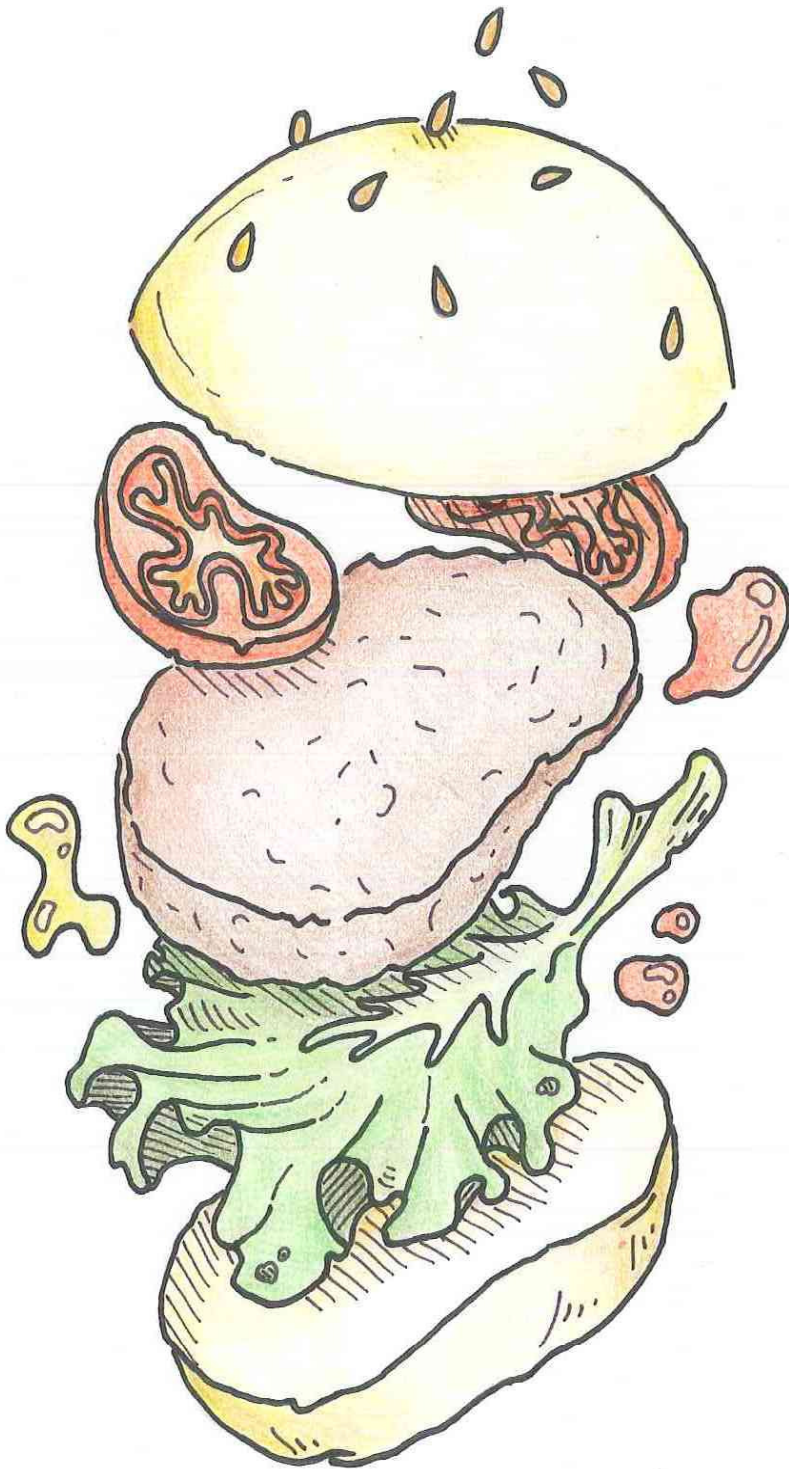

In the Open Space Technique, the main **RULES** are:

- TWO STEPS → move to another discussion when you feel
- YOU ARE THE RIGHT PERSON!!! → even if you remain alone in your table
- TIME IT'S TIME → keep attention to the time you have at disposal and respect it
- BUTTERFLIES AND BEES → in a group you can be in silent and listen, as you can also speak and share your opinion.

<b>TITLE</b>	<b>Work in groups and preparation</b>
<b>TOPIC/S</b>	Interactive methods within non formal education to run a workshop
<b>AIM</b>	To make participants practicing how to conceive, organize and implement a workshop of 150 minutes that can be afterwards re-proposed during the Youth Meetings
<b>TOOL TYPE</b>	Work in groups
<b>MATERIAL</b>	Flipcharts, markers, pen, paper A4, scissor, glue, post-it, scotch tape and any other material that participants will need to prepare the workshop
<b>DURATION</b>	180 minutes
<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1. Group division</b> four groups are created and receive the following task: they have to create a workshop 2 hours and a half long, that can be re-proposed during the Youth Meetings. <b>NOTE:</b> during the group division it's important to ask flexibility in order to try to have groups balanced in size, gender and nationality.</p> <p><b>Step 2. Preparation</b> Participants, divided in groups will work on the preparation of a short workshop of 150 minutes, using non formal education working methods. <b>NOTE:</b> the methods tested and assessed could be afterward used during the Youth Meetings held in Myanmar, Indonesia and Vietnam forecast for July and August 2017.</p> <p><b>Step 3. Feedbacks</b> At the end of the preparation it's run a session about feedbacks: this part is shaped to make participants reflect on how to give a positive feedback to the others after the end of the workshop. Indeed, after realizing each workshop, extra 30 minutes will be allocated to give feedbacks about the activity organized. The Sandwich model (Handout below) is presented in plenary and participants can ask questions and clarifications. The main elements that have to be analysed are:</p> <ul style="list-style-type: none"> <li>• <b>your feelings</b></li> <li>• <b>something to improve</b></li> <li>• <b>something good.</b></li> </ul> <p><b>NOTE:</b> the focus is centred on "giving positive feedback". Please bear in mind that all the questions are very personal and there is no intention to</p>

	<p>make anyone feeling uncomfortable or hurt. On the contrary, the activity aims to give the chance to think how to find positive words for people we work with and encourage them to continue working and trying to improve all the time.</p> <p>Every time feedbacks are towards the activity, not personal feedbacks to individual participants are given.</p> <p><b>See Handout below.</b></p>

<b>TITLE</b>	<b>Training in Action- Implementation</b>
<b>TOPIC/S</b>	Practical implementation of a workshop
<b>AIM</b>	<p>To make participants practically experiment how to create, structure and prepare a workshop of 150 minutes, using non formal education working methods.</p> <p><b>NOTE:</b> the methods tested and assessed could have been afterward used during the Local Actions Implementation</p>
<b>TOOL TYPE</b>	Non formal education workshops
<b>MATERIAL</b>	Flipcharts, markers, pen, paper A4, scissor, glue, post-it, scotch tape and any other material that participants will need to run the workshop
<b>DURATION</b>	720 minutes in total = 150 minutes workshop+ 30 minutes feedbacks
<b>DESCRIPTION</b>	<p>Each group has at disposal 150 minutes to run the workshop.</p> <p>Below the example on how the group rotation is working:</p> <ul style="list-style-type: none"> <li>• group A → B + C + D</li> <li>• group B → A + C + D</li> <li>• group C → A+ B + D</li> <li>• group D → A + B + C</li> </ul> <p><b>IMPORTANT FOR THE FEEDBACKS AFTER EACH WORKSHOP</b>  the 30 minutes of feedbacks are divided in the following way:</p> <ul style="list-style-type: none"> <li>• feedbacks from the participants who run the activities;</li> <li>• feedbacks from the participants who participated in the activity;</li> <li>• feedbacks from the pool of trainers.</li> </ul> <p><b>NOTE:</b> participants have to follow the predetermined structure of the "Sandwich Model" for giving feedbacks:</p> <ul style="list-style-type: none"> <li>• personal feelings about the work;</li> <li>• something to improve;</li> <li>• something good.</li> </ul>

**The OUTCOMES in this section comes from the Training in Action – TiA session, where participants received the task to conceive, plan and implement a workshop of 150 minutes.**

**The 4 workshops created, have been delivered during the training course, evaluated, assessed and upgraded.**

**The idea was to afterwards use these workshops during the Youth Meetings forecast in July and August 2017.**

# OUTCOMES\_TIA PARTICIPANTS WORKSHOP 1

<b>TARGET GROUP</b>	Youth meetings participants
<b>MACROTOPIC</b>	Gender sensitive issues
<b>SUBTOPIC</b>	<b>Stereotypes &amp; prejudices</b>
<b>OBJECTIVES</b>	To understand how stereotypes and prejudices might lead to gender based discrimination
<b>TITLE</b>	<b>Stoppy time</b>
<b>METHODS</b>	<ul style="list-style-type: none"> <li>• Energizer activity</li> <li>• Simulation game</li> <li>• Discussion</li> </ul>

Each person will have 10 minutes to write it down on post-it notes.</p> <p>After time's up, a set of time of 40 minutes is given to share in three groups and ask to create a common list. Eventually, the groups present their list in plenary, while facilitators ask them questions.</p> <p><b>Activity 2: Stereotypes vs prejudices</b></p> <p>Participants are invited to stay in the middle of the space in front of them. A facilitator then, ask them to react accordingly to certain statements, going to the right side of the workshop room if they think is a stereotype and to the left if they consider it a prejudice.</p> <p>The statements proposed could be:</p>

	<ul style="list-style-type: none"> <li>• All women are good cooker</li> <li>• A lot of men love football</li> <li>• Men do not express their emotions</li> <li>• Women with tattoos are easy going</li> <li>• Real men should not cry</li> </ul> <p>When participants take their positions, the facilitators ask them to explain why they chose it and start to debate about it. If the group has a good mood and energy, participants from one group can ask questions to the other group.</p> <p>When all the statements have been read, facilitators, in plenary, give an explanation and further information about what a stereotype and a prejudice are.</p>

<b>OBJECTIVES</b>	To sensitize and raise awareness on gender roles and stereotypes; to reflect on how work is defined differently for men and women
<b>TITLE</b>	<b>Raise your hand</b>
<b>METHODS</b>	<ul style="list-style-type: none"> <li>• Frontal presentation</li> <li>• Drawings</li> <li>• Team building exercise</li> <li>• Quiz</li> <li>• Debriefing</li> </ul>

<b>MATERIALS</b>	3 stools, chairs, board, prizes, color markers, flipcharts, post-it, A4 paper sheets
<b>DESCRIPTION</b>	<p><b>Activity 1: Draw your Clock</b></p> <p>Divide the group in national pairs and give to each participant their "clock" paper, in which they have to describe the daily routine of a person. Ask them to calculate how many hours a person works in a day, reflecting on the definition of "work". Then they also have to reflect on the difference that might occur if the person they decided to describe is of the opposite sex. If there's time left, ask to all the pairs to present their clocks.</p> <p>Then, in plenary, facilitators tell a personal story, which leads to a frontal presentation about the differences between the reproductive/domestic role, the productive role and the community role.</p> <p><b>Activity 2: No name game</b></p> <p>Participants are divided in four different groups. Facilitators will ask a set of closed questions, as a quiz (see Handout below). The objective of the activity is to get as many points as possible. Each group has 15 second to discuss and choose between the option A, B or C, telling why they did choose that answer (e.g. "we answered B because we learn it at school"). One point is assigned to each correct answer and the group will get the possibility to answer the next question, while, if they are wrong, they will get 0 point and cannot answer the next question. In the end, the scores are calculated and the winner group get a prize.</p> <p><b>NOTE:</b> observe if you get as answer "we know this for a fact", "we made a logical elimination process", "we think so", they can hide stereotypes.</p> <p>Conclude with a debriefing where a set of questions is asked:</p>

	<ul style="list-style-type: none"><li>• How did you feel?</li><li>• Which criteria did you use to choose the answer?</li><li>• Were you surprised by the correct answer?</li></ul> <p>Sum up and conclude with the motto "think about how we think about things".</p> <p><b>See Handout below.</b></p>

# GETTING TO KNOW EACH OTHERS

<b>TITLE</b>	<b>Cafeteria</b>
<b>TOPIC/S</b>	Gender-related issues
<b>AIM</b>	To make participants discuss relevant gender-related topics
<b>TOOL TYPE</b>	Work in small groups
<b>MATERIAL</b>	Flipchart, markers, A4 papers, post-it, pens. If it's possible, all the staff to simulate a cafeteria, Handout
<b>DURATION</b>	100 minutes
<b>DESCRIPTION</b>	<p><b>Setting:</b> the room is organized as a cafeteria, there are 5 tables with chairs, nice tablecloths, one flipchart in the middle of each table, with post-it and markers. Trainers and facilitators are dressed up as waiters, possibly with aprons and note books where to take the customers' orders.</p> <p><b>NOTE:</b> all the details, being a simulation, are important, so if we want to add flowers, candies or any other staff reminding a cafeteria it's fine. Waiters welcome participants in the cafeteria and explain them which table to join. Once all the participants are sitting on their table, it's presented the activity: each table have some relevant questions to discuss. The questions are not presented in the same time, but after each slot of time a new question is delivered to each table. While participants are discussing, waiters are joining the tables taking the customers' orders and bring them coffee, tea, biscuit, candies and fruit.</p> <p>Below, in the Handout, the set of questions to discuss.</p> <p>In the end of the activity, waiters ask participants to pay the bills. The payment is not with real money, but asking each one to write on three different post-it their fears, expectations and contribution toward the training. Post-it have three different colours, one for fears, one for expectations and contribution. When participants have finished the task, they are asked to put them on their reference flipchart on the wall. After the next activity "Working together", the restitution is foreseen.</p> <p><b>See Handout below.</b></p>

# **HANDOUT\_CAFETERIA QUESTIONS**

**WHEN I DON'T HAVE INTERNET ACCESS ...**

**IF I HAD A SUPER POWER ...**

**WHAT DO YOU KNOW ABOUT THE PROJECT "STAGED"?**

**HOW WOULD YOU DEFINE SEX AND GENDER?**

**WHAT IS YOUR EXPERIENCE WITH PROJECTS?**

<b>TITLE</b>	<b>Working together</b>
<b>TOPIC/S</b>	Work in group
<b>AIM</b>	To make participants set common agreements on how to live together and how to work together all along the training course
<b>TOOL TYPE</b>	Individual work, work in group and plenary discussion
<b>MATERIAL</b>	Post-it, A4 paper, pens, markers, 1 big flipchart
<b>DURATION</b>	45 minutes
<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1. Individual work</b> Participants receive a post-it and should think about common rules to live together and common working agreements to be applied for the whole duration of the training.</p> <p><b>Step 2. Work in group</b> Participants are gathering in different groups (approximately 5) and share the main outcomes. Then they have to create a common list of rules and working agreements.</p> <p><b>Step 3. Plenary discussion</b> The groups are back in plenary and moderated by a facilitator, they present the common list of rules and working agreements they have prepared. During the presentation the different elements are listed on a flipchart. The aim of the activity is to arrive at the end, using the consensus methodology, to a list of common rules to live together and common working agreements to be applied for the whole duration of the training. The flipchart will remain on the wall for the week and participants will have the possibility to propose adjustments or new elements on process.</p>

# TEAM BUILDING

<b>TITLE</b>	<b>Leave me the chair</b>
<b>TOPIC/S</b>	Team building, communication exercise, group building activity
<b>AIM</b>	To make participants interact, to develop the cooperation, to stimulate the active listening and the active observation
<b>TOOL TYPE</b>	Team Building and Group dynamics
<b>MATERIAL</b>	"X" number of chairs, accordingly to the participants number
<b>DURATION</b>	30 minutes
<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> participants are invited to sit on the chair and the activity is introduced by a trainer standing in the middle of the room. The aim of the person standing in the middle of the room is to take a chair and sit. But in order to do that he/she has to walk in the room trying to steal an empty chair. In the same time all the participants sitting have to move (not simultaneously) to other chairs, but they also have to find a way to not to make the person standing take the empty chair. The game starts.</p> <p><b>Step 2.</b> the facilitator exits the room and give 2 minutes to the group to find a common strategy. When he/she enters back the game starts again.</p> <p><b>Step 3.</b> the facilitator exits one more time the room and give 3 minutes to the group to find a common strategy. When he/she enters back the game starts again.</p> <p><b>Step 4.</b> this time two facilitators enter the game, both standing in the room and their goal is to steal two chairs. In the same time all the participants sitting have to move (not simultaneously) to other chairs, but they also have to find a way to not allow the persons standing to take the empty chairs. The game starts.</p> <p><b>Step 5.</b> the facilitators exit one more time the room and give 4 minutes to the group to find a common strategy. When they enter back the game starts again.</p> <p><b>NOTE:</b> this activity is proposed as energizer, even if is the first instructive step in the team building, for this reason we recommend to avoid the debriefing at its end, but to include it in the final debriefing that will be run at the end of the activity "The Tower".</p>

<b>TITLE</b>	<b>The Tower</b>
<b>TOPIC/S</b>	Construction, communication exercise, group building activity

Each group receives different objects in equal number and the instruction and the task are delivered: they have to build the highest and more resistant tower in the world! (5 minutes)</p> <p><b>Step 2.</b> the activity starts and each group has at disposal fifteen minutes to create the tower. (15 minutes)</p> <p><b>Step 3.</b> each group should visit the other group's stations, to see the tower. (5 minutes)</p> <p><b>Step 3.</b> it does not follow the debriefing in plenary, which will be run after the next activity "The Bridge", but the groups gather and discuss within their group what has happened during the activity. The Handout below is distributed in each group to facilitate the reflection and the discussion.</p> <p><b>See Handout below.</b></p>

## CHAPTER 2

### PROJECT DESIGN

# YOUTH MEETINGS

<b>TITLE</b>	<b>The Gallery</b>
<b>TOPIC/S</b>	Actions realized during the Youth Meetings
<b>AIM</b>	To share in an interactive and participative way, the actions realized during the Youth Meetings and the main outcomes
<b>TOOL TYPE</b>	Interactive work in national group and itinerant plenary for the presentation
<b>MATERIAL</b>	Flipcharts, A4 paper, markers, post-it, scotch tape, markers, colours
<b>DURATION</b>	105 minutes in total = 60 minutes (for the preparation) + 45 minutes for the representation
<b>DESCRIPTION</b>	<p>Participants are divided in national groups and they have to prepare the presentation of what happened during the Youth Meetings.</p> <p>The presentation has to highlight two aspects:</p> <ol style="list-style-type: none"> <li>1. <b>General:</b> each group receives, as a general track, a set of questions to be answered <ul style="list-style-type: none"> <li>• How many meetings did you organize?</li> <li>• How many young people took part? What was their profiles?</li> <li>• What activities did you realize and what was the methodology used?</li> <li>• How many facilitators took part? How many in each meeting?</li> </ul> </li> <li>2. <b>Specific – outcomes:</b> each national group has to create a Mind Map to present the most relevant information gathered and the main outcomes of the Youth Meetings.</li> </ol> <p>It follows in plenary the itinerant presentation of the national groups, structured as follow: each group has to choose a spot where the living presentation will take place. When the presentation starts, in each national team two persons have to remain on the spot to present the YMs structure, the main outcomes and the mind map to the other participants visiting the spot. The other national' group members can move to other spots to discover what happened in the other countries. After some minutes there is a rotation in the person presenting: in that way everybody will have the chance to visit the other spots and to discover what happened in the other countries.</p>

# MIND MAP

<b>TITLE</b>	<b>Creation of a collective mind map</b>
<b>TOPIC/S</b>	Gender sensitive issues in the different countries
<b>AIM</b>	To create a collective mind map about common gender issues in three countries
<b>TOOL TYPE</b>	Work in plenary with the support of the Mind Map tool
<b>MATERIAL</b>	Flipchart, A4 paper, pens, markers, scotch paper, colours
<b>DURATION</b>	150 minutes
<b>DESCRIPTION</b>	<p>This activity starts from the main outcomes appeared in the previous one, "The Gallery".</p> <p><b>Setting:</b> participants are sitting in circle (big circle) in the plenary room. In the middle of the floor, there is a piece of paper where a brain, symbolizing the Mind Map, is drawn.</p> <p>Based on the analysis of gender issues identified in each country from a national perspective, participants are invited, without a predetermined order, to take a paper, to write a common issue that comes up in their mind in connection with the presentation of the results of the youth meetings and to place it on the mind map. Each participant is also asked to associate each issue proposed with the categories identified during the training in Vietnam to draft the questionnaire. The <b>macro-categories</b> appeared were:</p> <ul style="list-style-type: none"> <li>• Culture</li> <li>• Religion</li> <li>• Education</li> <li>• Politics and Laws</li> <li>• Health</li> <li>• Media</li> </ul> <p>Furthermore, they are also invited to highlight the connections and links among the issues raised by other participants and the categories. When taking the floor, participants must first present their word, explain why they chose the macro category and then develop their point of view. The following person has the choice to position his or her paper on the same category if his or her issue is related to the preceding one or choose a new category.</p> <p>Once the activity it's over, participants are asked to choose, using post-it for voting, the 2 areas they are more interested to work for the upcoming steps of the project design. The different expression of interest are gathered, checked and 6 groups are created. These groups will work together on the design of their project proposal.</p> <p><b>See Handout below.</b></p>

## **MORE INFORMATION CONCERNING THE MIND MAP**

A Mind Map is a diagram/drawing in which information is represented visually, usually with a central idea placed in the middle and associated ideas arranged around it.

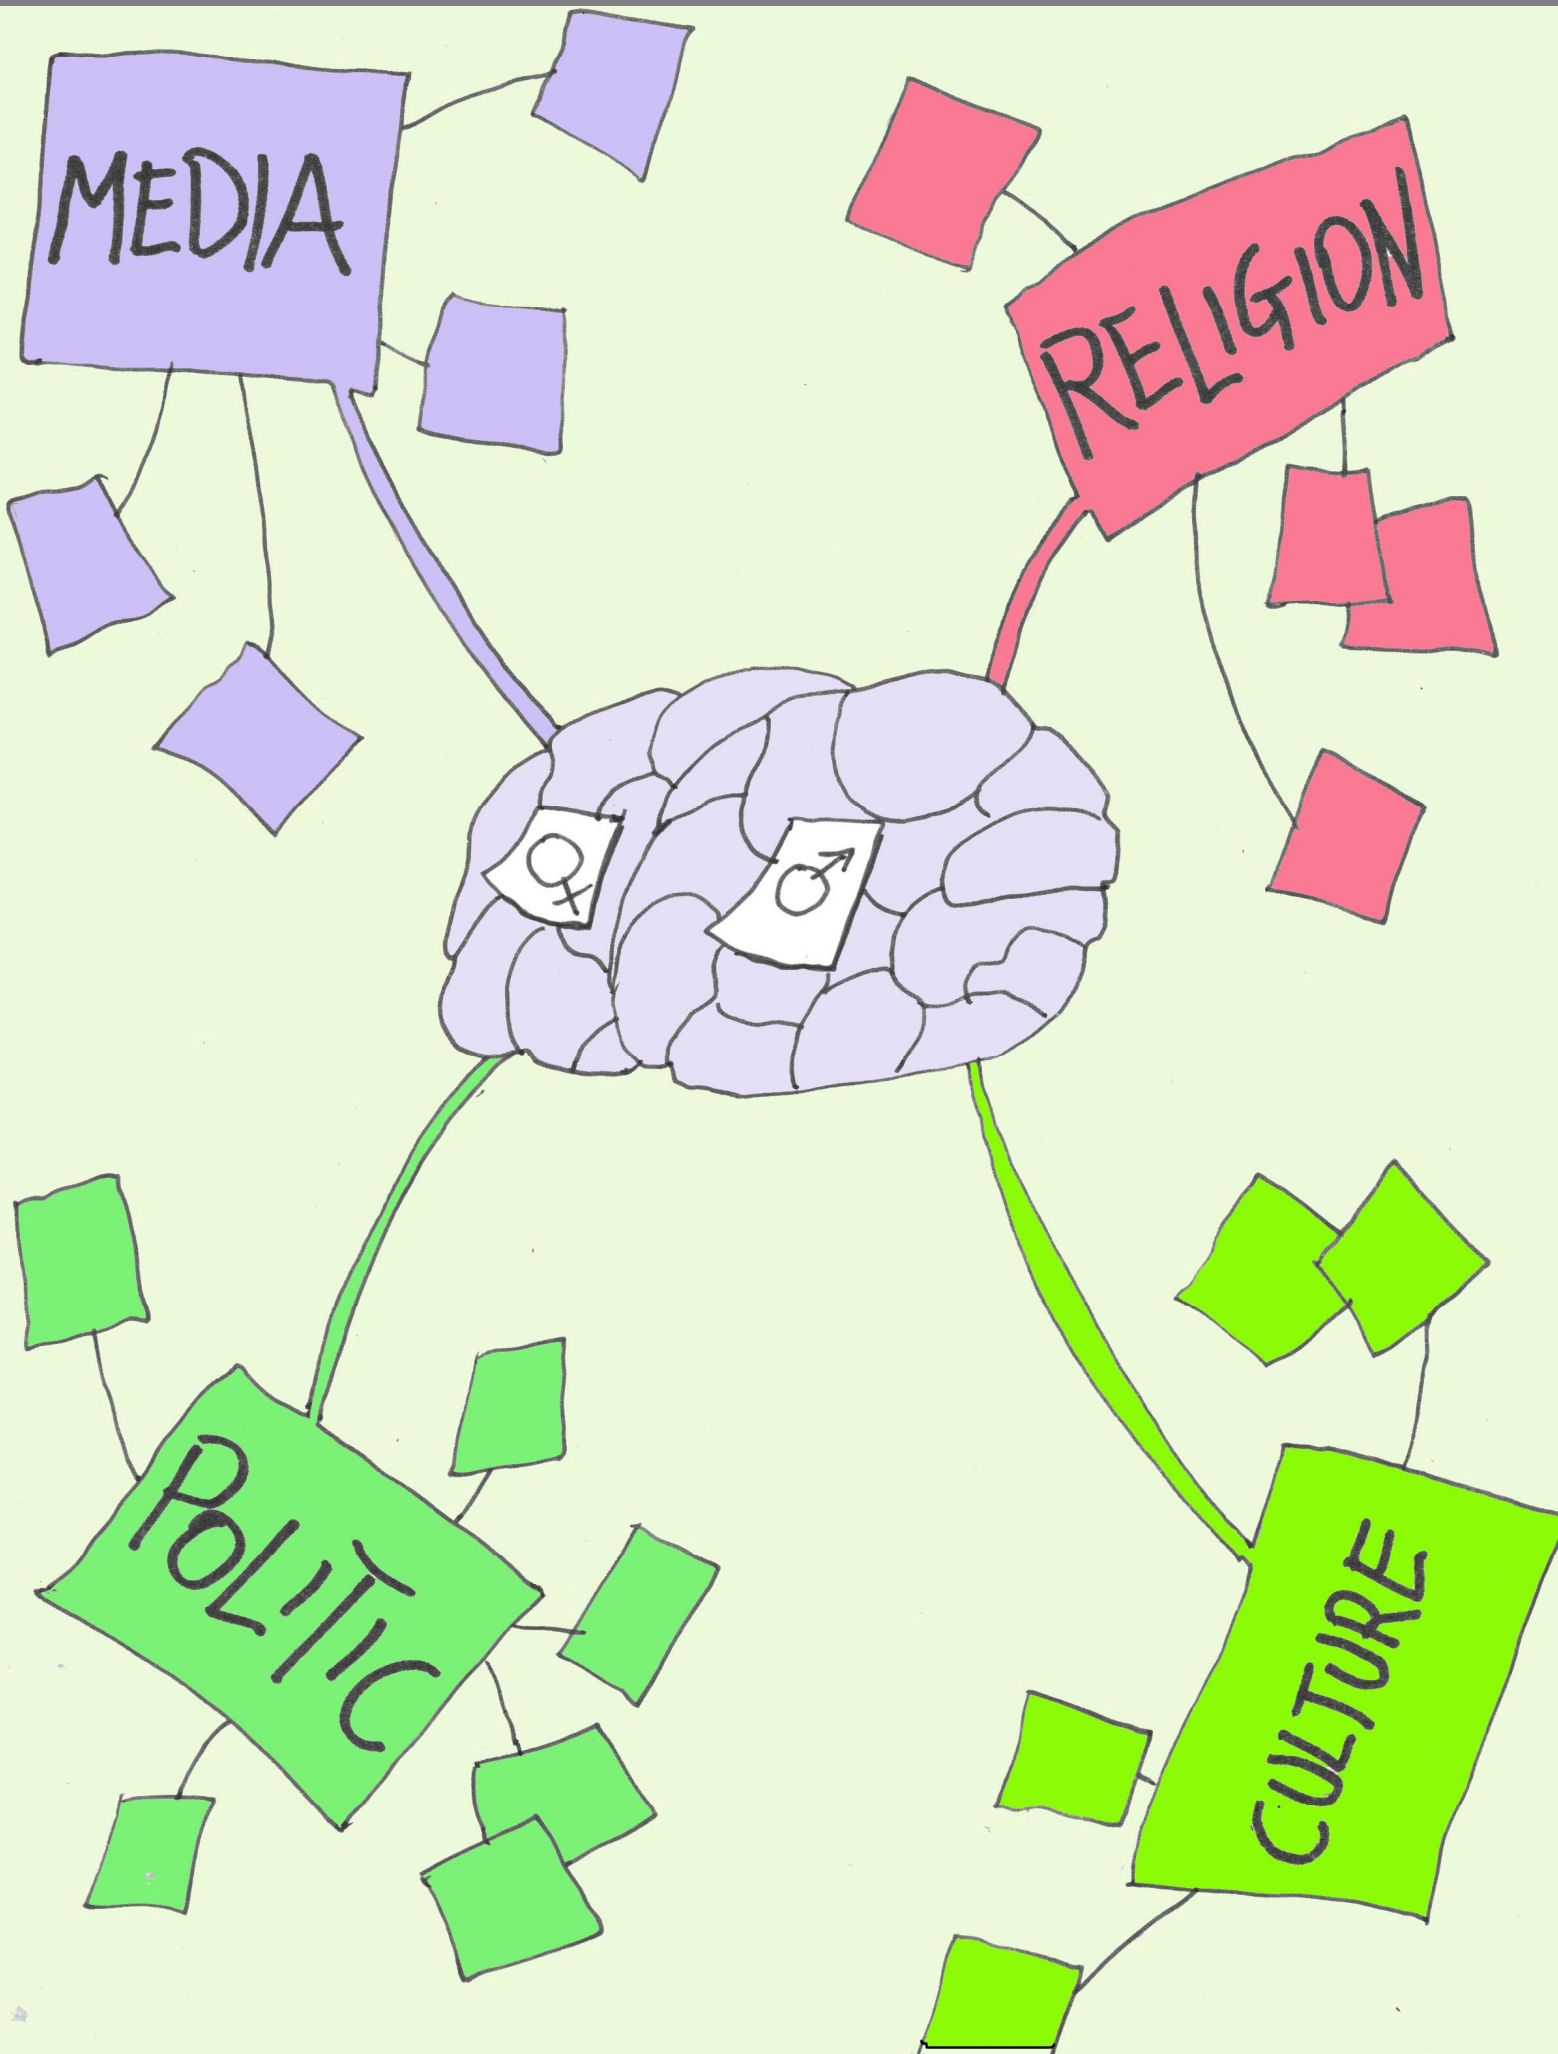

Mind Map is a highly effective way of getting information in and out of your brain and to, literally, "map out" your ideas.

All Mind Maps have some things in common. They have a natural organizational structure that radiates from the centre and use lines, symbols, words, colour and images according to simple, brain-friendly concepts.

The tool is conceived that way to show relationships among the pieces/concepts/ideas of the whole subject. A Mind Map is often created around a single concept/idea, drawn as an image in the centre of a blank page, to which associated representations of ideas such as images, words and parts of words are added. Major ideas are connected directly to the central concept, and other ideas branch out from those.

In practice this tool AIMS to represent, in a visual way, the main information collected and to share them in a catching and intuitive way.

# PROJECT DESIGN – step 1

<b>TITLE</b>	<b>Gincana</b>
<b>TOPIC/S</b>	Project time line - 5 W - problems/causes/effects
<b>AIM</b>	To learn the main pillars on the project management: <ul style="list-style-type: none"> <li>• the project timeline;</li> <li>• the 5 W (Who, Why, What, When, Where);</li> <li>• the inter-relation between problems, causes and effects</li> </ul>
<b>TOOL TYPE</b>	Itinerant work in group
<b>MATERIAL</b>	/
<b>DURATION</b>	70 minutes in total (10 minutes: explanation + 60 minutes: activity - each round should last 20 minutes)
<b>DESCRIPTION</b>	<p><b>Setting:</b> trainers should create 3 different stations representing:</p> <ul style="list-style-type: none"> <li>• project time line</li> <li>• 5 W</li> <li>• problems/causes/effects</li> </ul> <p><b>NOTE:</b> in case of big groups we recommend to create 6 stations, with 6 facilitators, 2 for the project time line, 2 for the 5 W and 2 for the problems/causes/effects. Possibly two separate rooms: 3 stations/facilitator in each.</p> <p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> the activity is presented, participants are divided in 3 groups (or 6 groups), and the rules of the activity are explained.</p> <p><b>Step 2.</b> each team has to move from station to station, searching for as much information as possible about what the station is about and performing the tasks assigned in each station. In each station they have to stay 20 minutes. One of the trainers gives the time for the rotation.</p> <p><b>See Handout below.</b></p>

<b>AIM</b>	To identify the causes and solutions related to the macro-problems
<b>TOOL TYPE</b>	Work in group
<b>MATERIAL</b>	The tree model drawn on a flipchart (one for each group), post-it, pens and markers, Handout
<b>DURATION</b>	120 minutes
<b>DESCRIPTION</b>	<p><b>Introduction:</b> in plenary the Tree Model is presented and it's explained that, in this specific case, the groups won't work on the tree 1 (causes and effects) and then on the tree 2 (solutions and results), but only on the causes of the tree 1 and the solutions of the tree 2.</p> <p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> participants, back in their group, starting from the macro-problem identified (trunk) have to identify the problem's causes (roots) → tree 1.</p> <p><b>Step 2.</b> having still in mind the macro-problem identified (trunk), they have to identify the solutions (roots) → tree 2</p> <p><b>See Handout below.</b></p>

# HANDOUT\_THE TREE MODEL

<b>TITLE</b>	<b>Identification (context)</b>
<b>TOPIC/S</b>	Context where the project/action will take place
<b>AIM</b>	To identify the context where the project/action will take place to better target and narrow the work on project design
<b>TOOL TYPE</b>	Work in group
<b>MATERIAL</b>	Flipcharts, A4 paper, post-it, pens, markers, scotch paper
<b>DURATION</b>	60 minutes
<b>DESCRIPTION</b>	<p>In the previous activity "The Tree (causes and solutions)", groups have been asked to identify, on a larger scale, the causes and solutions related to the macro-problem. This was to give them the chance, starting from the collective Mind Map (representing gender sensitive issues in different countries) to have a better picture and a general overview of the causes and solutions.</p> <p>Now the groups are asked to narrow and better target their work, identifying a context where their project/action, will take place. Indeed having the context will facilitate the project design work, because it will allow the groups to start from the needs assessment and diagnostic of the context and target groups, to afterwards define the objectives and the project structure.</p>

<b>TITLE</b>	<b>Identification (stakeholders)</b>
<b>TOPIC/S</b>	Stakeholders of the context where the project/action will take place
<b>AIM</b>	To identify the stakeholders present in the context where the project/action will take place to better target and narrow the work on project design
<b>TOOL TYPE</b>	Work in group
<b>MATERIAL</b>	Flipcharts, A4 paper, post-it, pens, markers, scotch paper
<b>DURATION</b>	60 minutes

<b>DESCRIPTION</b>	<p>In the previous activity "Identification (context)" the groups have been asked to narrow and better target their work, identifying a context where their project/action, will take place. Indeed, the context identification facilitates the project design work, because it allows the groups to start from the needs assessment and diagnostic of the context and target groups, to afterwards define the objectives and the project structure.</p> <p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> based on the same logic of the previous activity, the groups are asked to narrow and better target their work, identifying the stakeholders present in the context where their project/action, will take place. Indeed, having the stakeholders will facilitate the project design work, because it will allow the groups to start from their needs assessment and profile, to afterwards define the objectives and the project structure.</p> <p><b>Step 2.</b> after the general identification of all the stakeholders, groups have to identify who are the direct actors/target/beneficiaries of the project and the stakeholders surrounding (and may be directly or indirectly involved in the action).</p> <p><b>Step 3.</b> groups have to identify the links among the different stakeholders, actors/target/beneficiaries involved.</p>
--------------------	---

<b>TITLE</b>	<b>Be specific (objectives)</b>
<b>TOPIC/S</b>	Objectives identification
<b>AIM</b>	To identify the objectives related to the causes
<b>TOOL TYPE</b>	Work in group
<b>MATERIAL</b>	Flipcharts, A4 paper, post-it, pens, markers, scotch paper
<b>DURATION</b>	90 minutes
<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> each group has to be back on the solutions (see Tree Model, roots of the tree 2) previously identified. They have to choose one or more solutions and for each one they have to identify one or more specific objectives.</p> <p><b>Step 2:</b> all the objectives listed have to be prioritised and included on a list. The list is put on the Tree Model, closer to the solutions (see Tree Model, roots of the tree 2).</p>

<b>TITLE</b>	<b>Market of ideas (actions)</b>
<b>TOPIC/S</b>	Activities proposal
<b>AIM</b>	To propose a set of possible activities to meet the identified specific objectives
<b>TOOL TYPE</b>	Work in groups
<b>MATERIAL</b>	Flipcharts, A4 paper, post-it, pens, markers, scotch paper
<b>DURATION</b>	70 minutes
<b>DESCRIPTION</b>	<p>Each group has to be back on the specific objectives related to the macro-problem they have identified. Having in mind these objectives, concrete activity proposals should be launched.</p> <p><b>GENERAL REMARK CONCERNING THE METHODOLOGY:</b> each group receives a sheet of paper A4. The first person starts, writing on the sheet his/her activity proposal, then the sheet has to be passed to the next person. The activity follows in this way, respecting the rotation, till each participant has written a maximum of 3 proposals. During the work, participants have to remain in silence.</p> <p>This technique is conceived to:</p> <ul style="list-style-type: none"> <li>• enhance the concentration (is played in silence);</li> <li>• ease the fact that proposals are delivered one by one (without overlapping during the discussion);</li> <li>• stimulate the focus (it's important to read what the others wrote before us, so avoid repetitions).</li> </ul> <p><b>NOTE:</b> a maximum of three activities for participants can be proposed. When a participant is receiving the sheet of paper he/she has to read the activities previously written by the other group members, so to avoid repetition.</p>

<b>TITLE</b>	<b>Actions prioritization (actions)</b>
<b>TOPIC/S</b>	Activity prioritisation
<b>AIM</b>	To set a priority list of the proposed activities/actions and to choose the one the group will work on
<b>TOOL TYPE</b>	Work in groups
<b>MATERIAL</b>	Flipcharts, A4 paper, post-it, pens, markers, scotch paper, Handout
<b>DURATION</b>	70 minutes
<b>DESCRIPTION</b>	<p>Each group receives an Handout as the model below.  Each group should be back on the list of the proposed activities/actions, prepared during the "Market of ideas" and make a prioritisation accordingly to the set of indicators below, assigning different scores.</p> <p>The <b>INDICATORS</b> are:</p> <ul style="list-style-type: none"> <li>• Objectives</li> <li>• Means = Resources</li> <li>• Urgency</li> <li>• Risk</li> </ul> <p>The activity/action that receives the highest score is the one selected for the upcoming work.</p> <p><b>See Handout below.</b></p>

<b>TITLE</b>	<b>5 W (project analysis)</b>
<b>TOPIC/S</b>	Analysis of the overall project
<b>AIM</b>	To make a more profound analysis of the overall project using the technique of the 5W
<b>TOOL TYPE</b>	Work in group
<b>MATERIAL</b>	Flipcharts, A4 paper, post-it, pens, markers, scotch paper, Handout
<b>DURATION</b>	60 minutes
<b>DESCRIPTION</b>	<p>Each group receives the Handout with the 5 W + HOW. The task is to analyse the overall project accordingly to the scheme received. The main questions are: "Who?", "Why?", "What?", "When?", "Where?", "How?"</p> <p><b>NOTE:</b> the idea is now to be back on the general overview of the project: after the work done aimed to be specific and well targeted, identifying the context, stakeholders' specific objectives and activities/actions, it's now important to analyse the bigger picture of the overall project. This will allow the groups to detect if there is an internal coherence or there are some elements missed.</p> <p><b>See Handout below.</b></p>

<b>AIM</b>	To reflect, in a retroactive way, on all the required steps that should be fulfilled while planning, organizing and implementing the chosen activity/project
<b>TOOL TYPE</b>	Work in group
<b>MATERIAL</b>	Flipcharts, A4 paper, post-it, pens, markers, scotch paper
<b>DURATION</b>	90 minutes
<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> in plenary the "Project Timeline" is presented. All the required steps needed to plan, organize and implement a project are detailed explained. Afterwards is presented the Handout with retro-planning, which consists in identifying the required steps to implement a project, starting from the last one. It's left space for questions and answers.</p> <p><b>Step 2.</b> each group has to make the detailed retro planning of the overall project chosen, including all the specific actions falling inside.</p> <p><b>NOTE:</b> all the steps in the retro-planning should be fixed on a flipchart, possibly, with the duration and the timeline.</p> <p><b>See Handout below.</b></p>

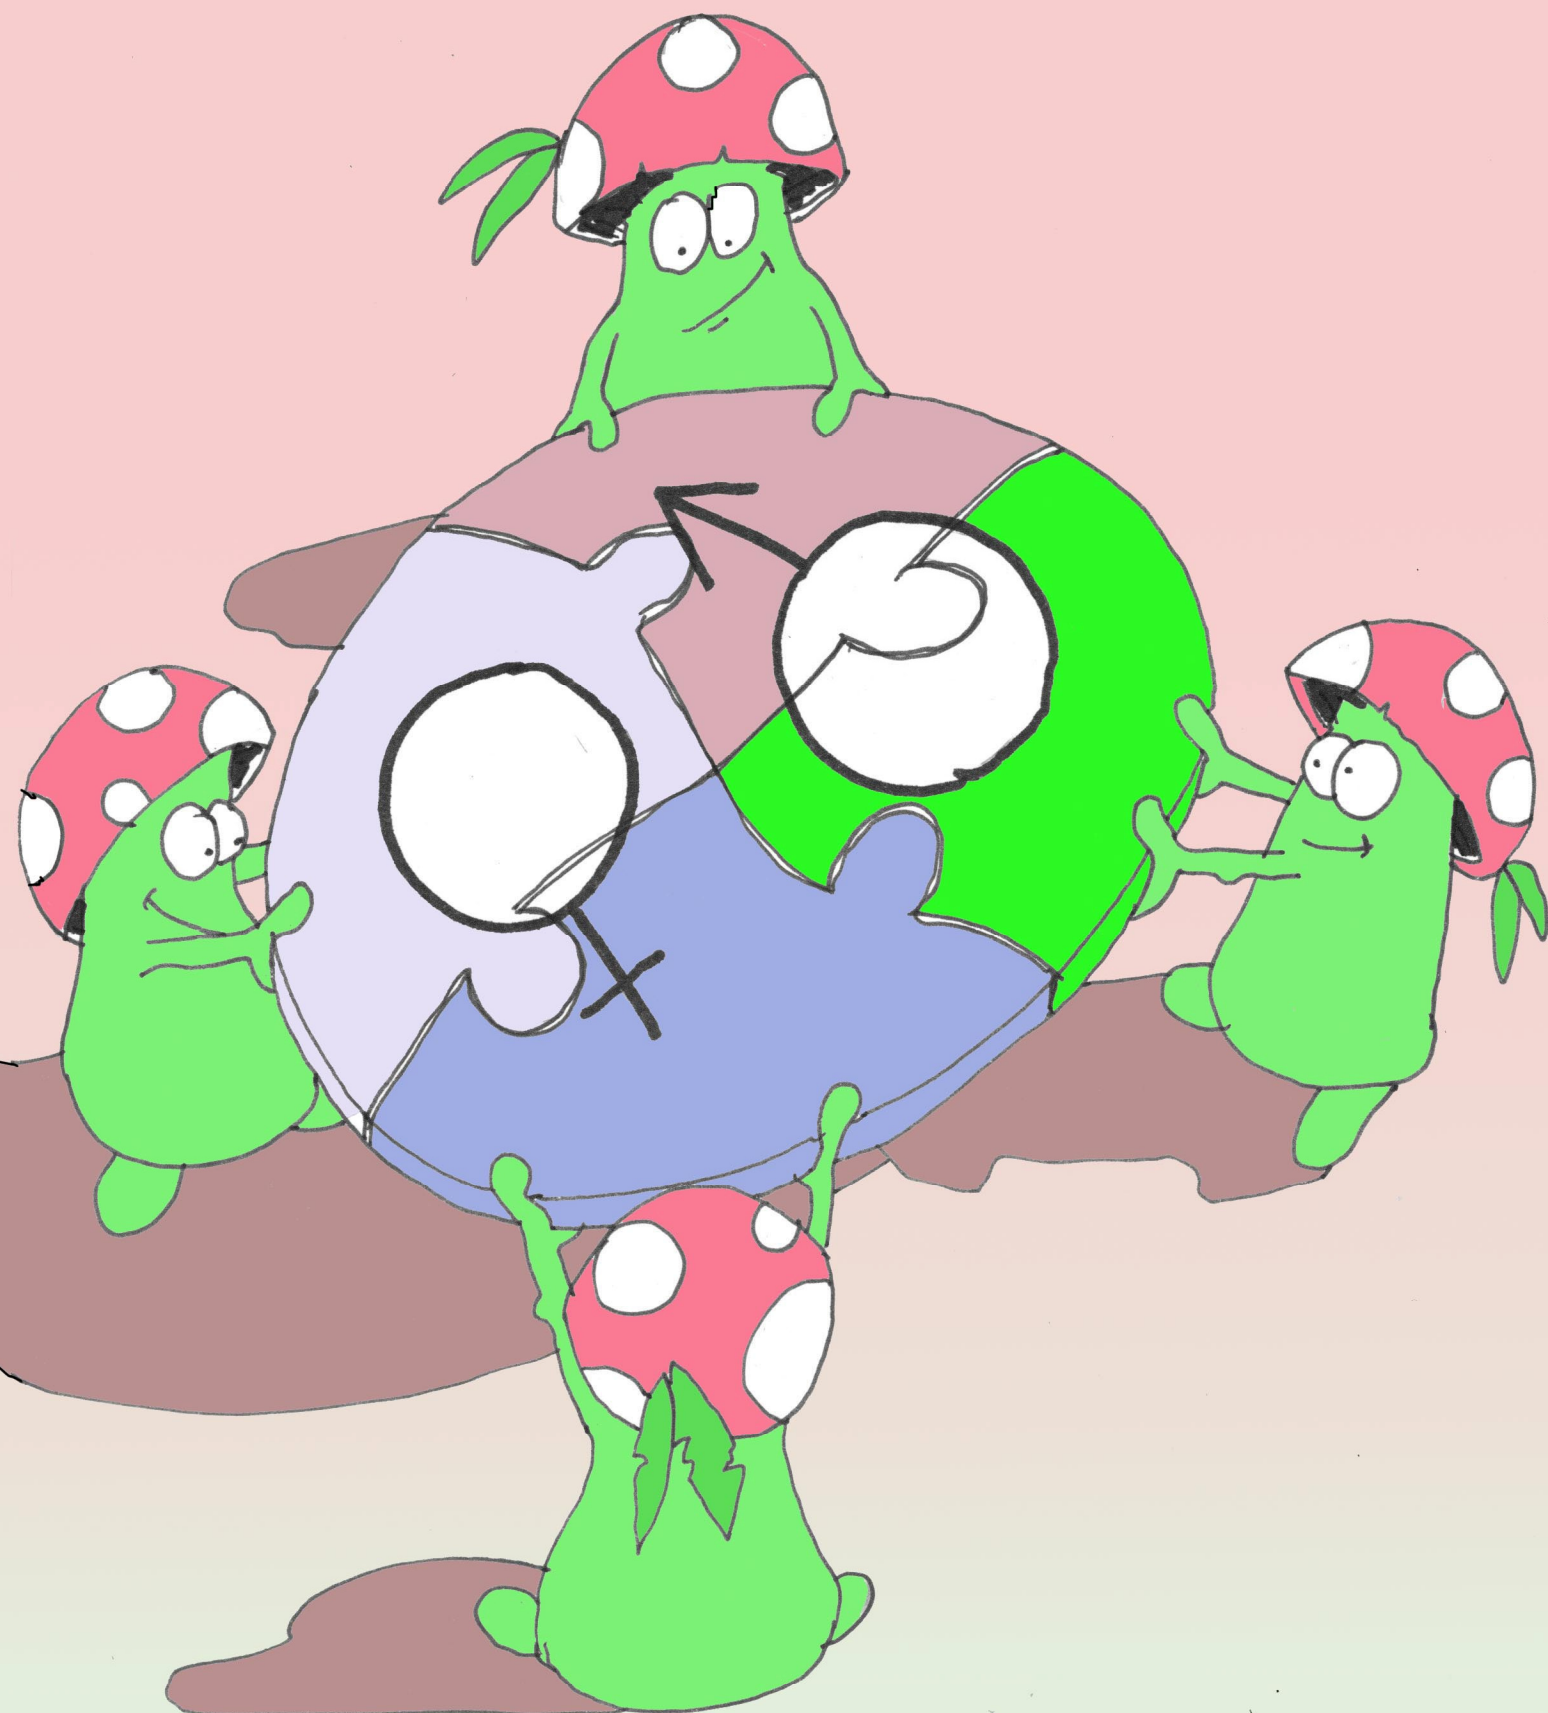

# HANDOUT\_RETROPLANNING

<b>TITLE</b>	<b>In Action (agenda)</b>
<b>TOPIC/S</b>	Agenda of one of the activities proposed within the project
<b>AIM</b>	To create the detailed agenda of one of the actions within the project
<b>TOOL TYPE</b>	Work in group
<b>MATERIAL</b>	Flipcharts, A4 paper, post-it, pens, markers, scotch paper
<b>DURATION</b>	90 minutes
<b>DESCRIPTION</b>	<p>The "Retro planning (timeline)" activity gave the chance to have an overall picture of all the actions within the project and the steps that need to be done in order to implement it.</p> <p>Now each group has to identify one of the action within the project (possibly a training or a workshop) and to define in detail the agenda of the overall event.</p> <p><b>NOTE:</b> this activity is preparatory for the upcoming session "Training in Action".</p>

## CHAPTER 3

### TRAINING in ACTION

# NON FORMAL EDUCATION

<b>TITLE</b>	<b>F – NF – I</b>

<b>MATERIAL</b>	Flipcharts, markers
<b>DURATION</b>	20 minutes
<b>DESCRIPTION</b>	<p><b>Setting:</b> the group is in plenary, sitting in circle and on a corner there is a trainer in front of a flipchart.</p> <p>The group is asked to brainstorm on key words defining formal education. The group is then asked to brainstorm on key words defining non formal education. After having collected all the key words, it's clarified the difference between formal, non formal and informal education.</p> <p><b>NOTE:</b> this activity is preparatory for the upcoming sessions.</p>

<b>TITLE</b>	<b>Role of the facilitator</b>
<b>TOPIC/S</b>	Role and qualities of the facilitator
<b>AIM</b>	Work in group and plenary presentation
<b>TOOL TYPE</b>	To reflect on the role a facilitator should have and on his/her qualities
<b>MATERIAL</b>	Flipcharts, A4 paper, post-it, pens, markers, scotch paper
<b>DURATION</b>	45 minutes

<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> participants are divided in groups (approximately 5 people each) and receive a flipchart. They have to discuss within the group the facilitator's role, skills and qualities and they have to give a graphic representation of the main outcomes.</p> <p><b>Step 2.</b> each group has a maximum amount of 5 minutes to present the work in plenary. It's left an extra time for questions and clarification requests.</p> <p><b>NOTE:</b> this activity has to be considered preparatory for the "Training in Action".</p>
--------------------	--

<b>TITLE</b>	<b>Finger to finger (space/contact)</b>
<b>TOPIC/S</b>	Body and eye contact
<b>AIM</b>	To encourage a reflection about the importance of the body posture and the eye contact and to make participants practically experiment it
<b>TOOL TYPE</b>	Work in couple
<b>MATERIAL</b>	A big workshop room and music
<b>DURATION</b>	20 minutes

All the space can be used.</p> <p>Then different types of music are played (starting from a very soft rhythm till arriving to a stronger one) and the couples should keep moving in the space accordingly to the intensity of the rhythm they perceive.</p>

	When the activity stops, the same couples are kept, but this time two lines are created, with a certain distance in between. The member of the couple should stay on the opposite line, one in front of the other and have to keep the eye contact among them.

<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> each participants is receiving a small piece of paper with a mission to be performed on it. They cannot show to the others their mission. The two missions in the papers are:</p> <ul style="list-style-type: none"> <li>• you have to bring outside all the chairs and leave them in a specific point in the garden, creating a circle</li> <li>• you have to bring inside the workshop room all the chairs you will find in the garden and create with them a circle</li> </ul> <p><b>Step 2.</b> participants are now left 10 minutes to finalize their task, remaining in silence.</p> <p><b>NOTE:</b> at the end of the activity is not foreseen a debriefing because it will be done at the very end of the four Team Work activities.</p>

<b>TITLE</b>	<b>Team Radar</b>

<b>AIM</b>	To develop the team work, the interaction and the cooperation and set ground for the upcoming step (Training inaction)
<b>TOOL TYPE</b>	Team work activity
<b>MATERIAL</b>	Blindfolds (one for each participant), 4 "totems", 4 flags
<b>DURATION</b>	45 minutes

<b>DESCRIPTION</b>	<p><b>Setting:</b> for this activity is needed big spaces outside, e.g. gardens or fields. They have five minutes to look where the totem is (the totem is set quite far away from their initial position) and to find their strategy to arrive there, blindfolded, and to bring back the flag.</p> <p><b>Step 2.</b> participants of each group are blindfolded and they start their task accomplishment. The activity has a limited time at disposal (approximately 30 minutes). In the case groups will finish earlier, they can be switched, going in another position, with the same task. 	<p>from the first tree, crossing the 3 ropes until the other tree. In this way it will be created only one ropes system.</p> <p><b>Step 3.</b> the activity starts and it's given a limited amount of time to accomplish the task.  <b>NOTE:</b> trainers can add impairments to the groups (e.g. one person blindfolded, one person mute, one person with the harms blocked, one person with the legs blocked). All these extra aspects have to be then well debriefed at the end of the session to reflect on inclusion and active participation in a group.</p> <p><b>Step 4.</b> when the time is over, each group, rotating, has to test the bridges built by the others (2 min for each test).  <b>NOTE:</b> at the end of the activity is not foreseen a debriefing because it will be done at the very end of the four Team Work activities.</p>

## CHAPTER 2

### FACILITATION TOOLS

# ACTIVE LISTENING

<b>TITLE</b>	<b>Coded Discussion</b>
<b>TOPIC/S</b>	Active listening

<b>DURATION</b>	60 minutes
<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1: Preparation</b>  The group is divided into two groups: one small group and one big group.  <b>1.1</b> the facilitator asks to the small group to go away with him/her to do some games or simple exercises. They have to be back after 10 minutes.  <b>1.2</b> meanwhile another facilitator asks the big group to stay in a circle and choose a topic to discuss (for example, migration).  They are asked to define 10 words that are often used to discuss that topic (for example: policy, immigration, laws, poverty, inequality...).  They are asked to replace all the 10 words with vocabulary from other topic (usually a simpler topic, for example food, say "policy" = pasta, "immigration" = spaghetti, "laws" = pizza,...) and to keep discussing the main topic using the vocabulary. They are left some time to practice the new vocabulary.</p> <p><b>Step 2: Discussion</b>  After the first part, the small group is asked to come back and join the discussion.  The facilitators have to observe how the discussion goes on.</p> <p><b>Step 3: Reflection</b>  At the end of the activity is forecasted a debriefing, that has to be mainly focused on active listening, communication and inclusion. Key questions:</p> <ul style="list-style-type: none"> <li>• How did you feel during the activity? (both the groups are asked)</li> <li>• What did you learn from the activity? (both the groups are asked)</li> </ul>

<b>MATERIAL</b>	Two big mattress (crash pad type)
<b>DURATION</b>	80 minutes
<b>DESCRIPTION</b>	<p><b>Setting:</b> trainers have prepared in advance two lines to keep distance between the groups and have put on floor two crash pads.</p> <p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b> the main group is divided in two sub-groups and it's explained that they have to imagine one river in the middle. The task of the 2 groups is to create a human bridge without stepping in the imaginary river.</p> <p><b>Step 2.</b> the two groups are left 5 minutes to discuss on how to build up the bridge.</p> <p><b>Step 3.</b> the two groups are starting to build the human bridge and when they think it's joined and stable, they have to send 1-2 persons each group to try to cross the bridge.</p> <p><b>Step 4.</b> after the activity it's over, it follows a debriefing where participants will reflect on the group dynamics, on the different roles within the group, with a specific focus on communication, cooperation and trust.</p>

The “The Master of Time” keeps the time and call the rotation.</p> <p><b>NOTE:</b> in order to speed up a bit the activity the rotation can be different: each group remains in the same station (place) and the facilitators are the ones rotating.</p>

Participants sit in a circle on the chairs. One person is in the middle and says one sentence that some of the participants can identify with e.g. "I like ice-cream". In this case everyone who likes ice-cream has to stand up, move and sit on a different chair. After everyone sits back down, one person is left without a chair and says another sentence and so on. At the end of the energizer participants are asked to look under their chairs: the number they find represent the group they belong to.</p> <p><b>Activity 2: Group discussion</b>  Three groups are created and they receive the following task: they have to share stories about gender based conflicts and choose one to afterwards share it through the representation.</p> <p><b>Activity 3: Image theatre</b>  Each group has to present the story by creating a series of 3 scenes/images using living statues. No talking or movement allowed in the 3 scenes/images. The 3 images must reflect the following stages of the conflict:</p> <ul style="list-style-type: none"> <li>• introduction of characters</li> <li>• development of conflict</li> <li>• conflict climax</li> </ul> <p>After each group presents their set of images, the other participants are asked to step into the last image and propose a solution for the conflict</p>

	<p>they identify. If the story/conflict isn't clear, the group who presented it can be asked to clarify.</p> <p><b>NOTE:</b> extra elements can be added to each group to propose a way to manage the conflict:</p> <ul style="list-style-type: none"> <li>• Group 1: the participants can place themselves in the image <i>but</i> they can't touch other statues or change anyone's position</li> <li>• Group 2: the participants can replace any statue they want except the oppressor(s) (if one or more oppressors can be identified)</li> <li>• Group 3: the participants can place themselves in the image as a new statue or change the position of one statue.</li> </ul> <p><b>Activity 4: Debriefing</b></p> <p>The debriefing is run in 3 different steps:</p> <ul style="list-style-type: none"> <li>• recap of the 1st story</li> <li>• question 1: what did you feel when you acted or when you saw the story?</li> <li>• question 2: what did you understand about the different solutions?</li> </ul>

## PEDAGOGICAL APPROACH

# METHODOLOGY & TOOLS

<b>TITLE</b>	<b>TiA evaluation – Tool Fair</b>
<b>TOPIC/S</b>	Evaluation of the tools used during the Training in Action workshops
<b>AIM</b>	To run, different steps, the evaluation of the tools proposed during the Training in Action workshops
<b>TOOL TYPE</b>	Work in group
<b>MATERIAL</b>	Flipcharts, markers, flipcharts, post it, colored markers
<b>DURATION</b>	160 minutes
<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b>the groups of the Training in Action are gathering and they have some time to reflect on the tools they used and on their strength and weaknesses.20 minutes approximately.</p> <p><b>Step 2.</b> in plenary and with the support of graphic facilitation, it's introduced the difference between Non Formal Education - NFE (sphere), Methodology (macro-area, eg. Role play game) and Tool (the specific tool falling within the methodology, eg. One Step Forward, that is falling within the methodology of Role Play Games). It's left space for questions, clarification, comments and contributions. 15 minutes approximately.</p> <p><b>Step 3.</b>5 different groups (approximately 5/6 participants each) are created and the task of the next step is explained: each group will a give methodology and a flipchart. They have to answer the following questions: 1. define the methodology, 2. explain when it can be used; 3. analyse the strengths and weaknesses; 4. list the tools that are falling within the methodology. 45 minutes approximately. <b>See Handout below.</b></p> <p><b>Step 4.</b> the different flipcharts are put on the wall and the members of the other groups, can have a look and leave post-its with questions and comments. 20 minutes approximately.</p> <p><b>Step 5.</b>each group has to take back the flipchart and carefully read the post it with comments and questions. 10 minutes approximately.</p> <p><b>Step 6.</b> back in plenary, each group is left 10 minutes to present the work done, to clarify the questions asked with the post it and answer the comments left on the post it. 50 minutes approximately.</p>

# OPEN WORKSHOPS

<b>TITLE</b>	<b>The Flower</b>

<b>AIM</b>	To present, test, share and assess different NFE tools that can be used in the gender framework
<b>TOOL TYPE</b>	Individual work and plenary
<b>MATERIAL</b>	Flipcharts, markers, flipcharts, post it, colored markers
<b>DURATION</b>	180 minutes
<b>DESCRIPTION</b>	<p>The activity is organized accordingly to the following steps:</p> <p><b>Step 1.</b>the activity starts in plenary and one of the facilitator is proposing the flower model (<a href="#">See Handout below</a>) and is explaining the activity: some minutes are left to think, at individual way, to extra NFE tools that can be used to raise awareness about gender-sensitive issues or to promote gender equality.</p> <p><b>Step 2.</b> each participant is receiving a piece of paper where they have to explain briefly: 1. Title (tool title); 2. What (short description of the tool); 3. Timing (time required to perform the tool); 4. Materials (what are the material/spaces needed to perform the tool).</p> <p><b>Step 3.</b> back in plenary each person proposes the tool, using as a support the short description prepared before and all the proposals are put on the flower model.</p> <p><b>NOTE:</b> it's very important to explain that it's not compulsory that each person will propose a tool, but then it's very important that each person will be involved in the working group to deliver the tool and participate in the workshop.</p> <p><b>Step 4.</b> the matching of the different proposals is done: in the case there are similar tools, the proposers are asked if they can merge the proposal and run together the workshop. At the end of the section, it's ready the list of tools/workshops that will be proposed in the next activities "Work in groups and preparation" and "Open Workshops – Implementation".</p>

So, please bear in mind that some ideas might change on process and also the way of performing the tool 😊.</p> <p><b>Step 2.</b> each group has to conceive and structure the workshop accordingly to its learning objectives, identify the activities to propose, divide the tasks, define responsibility, make the logistic check and the general rehearsal.</p> <p><b>METHODOLOGICAL REMARK:</b> it has been decided to dedicate this training session, after the Training in Action, to the further drafting, develop and implement workshops for different reasons:</p> <ul style="list-style-type: none"> <li>• to further develop participants’ facilitation and training skills: capacity of conceiving a workshop answering precise learning objectives and capacity to deliver, as a facilitator the activity itself;</li> <li>• to give participants the extra opportunity, being a Trainer for Trainers, to create workshops that they can test, evaluate and assess during the training itself;</li> <li>• to deepen the assessment on the cross-setting competences developed and on the learning to learn: it practically aims to develop the capacity to transmit to other people the knowledge acquired;</li> <li>• to create an extra set of workshops that can be re-used and re-adapted during the Follow Up activities and in new initiatives/actions.</li> </ul>
