CIVIC SERVICE #1

CULTURAL ANIMATION

At the social and international hosting center **la ferme du Fai** in the Alps, the association **Les Villages des Jeunes** propose you a collective civic service, around various missions that you will carry out with the support of the team and all the volunteers.

.....

ENCOURAGE MEETINGS

- Allow the various people hosted (volunteers, employees in integration courses, youth groups, families ...) to meet, by «doing together» and setting up specific activities (games, pizza evenings, workshops ...)
- Participate in the life of the place: collective workcamps to highlight the built and natural heritage, collective life
- Animate international workcamps and Europeans youth exchanges, in Fai and in different villages of the Alps : facilitate intercultural dialogue within the group, organize activities, visits, manage the budget.
- Organize meeting times with the local population: international meals, parties, screenings, debates, hikes ...

VALORIZE LOCAL RESOURCES

We also propose specific missions around two axes:

- Management and maintenance of the vegetable garden / organic and local cuisine / processing of local resources (lavender, fruits, vegetables ...)
- The preparation of cultural events and the renovation of the Fai acoustic system.

Important : considering the very rural situation of the place, **the driver's licence is necessary.** Accommodation is proposed on site, with the international volunteers of the association.

Where ? Le Saix, in the french Alps

When ? From March 19, 2018 (8 month)

How many positions available ? 4

Terms ? 18 to 25 years old

Compensation ? 570 € per month

Hospitality expenses ? 250 € per month

CIVIC SERVICE #2

HERITAGE PROTECTION

From May to October, Les Villages des Jeunes organizes various international projects for young volunteers, on its hosting centers and in several villages in the french Alps. Our workcamps are places of encounter and intercultural dialogue for volunteers from all around the world. They are also the place for technical learning and know-how in the field of traditional renovation: masonry, dry stone, plaster, exterior and interior insulation ...

.....

If you are interested in heritage protection, if your projects are oriented towards the technical supervision of international volunteer workcamps, integrational or educational projects, or if you plan to be technical educator, this mission may interest you !

For 6 months, it will be about helping our supervisor in the preparation and the animation of the workcamps, an opportunity to explore all the specificities of the job :

- Site visits with the heritage architect and the partners (landlords, officials)
- Support for the supply of materials and tools
- Support to the realization of the works with the volunteers: explanation of the works, transmission of technical gestures, organization of workstations
- Facilitation of the group: support for the dynamics of intercultural exchanges during the working time, translations ...

In order to achieve this mission with a relative autonomy, the driver's licence is recommended but not required. No diploma is required, however some notions of English as well as a first experience of manual work are welcome!

Where ? Le Saix, in the french Alps

When ? From April 30, 2018 (6 month)

How many positions available ? 2

Terms ? 18 to 25 years old

Compensation ? 570 € per month

Hospitality expenses ? 250 € per month
