

ERASMUS+ PROGRAMME
Key action 1 - Learning Mobility of Individuals

FR.O.M.

NFE Tools to Raise Awareness on Anti-Racism and Freedom of Movement

GENERAL BACKGROUND

In 2012 Lunaria defined and launched a medium term strategy to promote antiracism through mobility and voluntary service activities and projects.

The actors, target groups and beneficiaries of the process are young people, youth-social workers, local organizations and NGOs.

Within the anti-racism strategy, the following projects have been already implemented:

- **SHARING IDENTITIES Open Mind for an Intercultural Europe:** training course on intercultural learning, individual and multiple identities;
- **MIGRANT TOOLS Social work to promote intercultural dialogue:** training course to raise awareness toward migration and to promote anti-racist behaves;
- **WORDS ARE STONES Youth participation against racism: online and offline:** training course on hate speech, on line and off line, toward migrants and refugees;
- **UNVEILING STORIES Youth Work Against Racism:** training course to develop non formal education and theatrical tools to raise youth awareness toward the racism widespread in Europe;
- **TAKE IT OUT! Shaping youth commitment against racism:** training course to further develop the work about on line and off line hate speech and to develop tools for youth workers to fight the widespread of the phenomenon;
- **THE BUTTERFLY EFFECT Raising Awareness Among European Youth on the Refugees Crisis:** training course, job shadowing and youth exchange to raise awareness on the daily growth of discriminations, xenophobia and racism among young people and adults in Europe;
- **GEM Gender Equality and Migration:** training course and youth exchange to raise awareness on the daily growth of racism in Europe toward migrants and migrant women and to develop tools and working methods to raise awareness;

- **PEOPLE FIRST Communicating Human Rights in the Migration Era:** to provide youth workers, activist and young people, with new interactive tools and methodologies to raise awareness on human rights and to communicate them.

The main **PRIORITIES** within this strategy were and are:

- to raise **youth** awareness on the daily growth of discrimination and racism and to share relevant tools to make sensitisation among other peers;
- to provide **youth workers** and **peer educators** with new tools to fight the discrimination widespread and to promote intercultural approaches;
- to provide **local, international organizations** and **NGOs**, with new tools to conceive and implement actions and projects;
- to share **good practices** and **working methods** to make more effective the local and global action in Europe and worldwide;
- to create a **network** of different actors and organizations from the civil society, to promote equality and human rights.

The current project, which include different actions is also connected to **STRATEGIC, GLOBAL ACTIONS and PRIORITIES** of the Alliance of European Voluntary Service Organizations network, who have been active in the last years in the field of anti-racism and freedom of movement. Specifically, it's linked to:

- the **Petition Stop the massacres!** launched on May 2015 after the event that took place on the 19th of April 2015, where more than 800 migrants died on the Sicilian channel whilst attempting to reach the shores of Europe. This was only one among the heaviest of the numerous Mediterranean Sea massacres, which has shown the failure of both national and international policies governing migration. The IVS movement and many organizations joined the petition stating that years of closed borders, of sea monitoring, of illegitimate repatriation, of arbitrary arrests and of HRs violations have not done anything to stop the arrival of migrants into Europe. Migratory flows have been in the last years at the heart of the public debate on a political, legislative and even financial level but the proposed solutions did not generate real effects in terms of respect of the basic rights of human beings;
- the **Freedom of Movement position paper**, where are highlighted the challenges caused by movement restrictions that deny individuals the opportunity to experience lives in different countries than their own, learning from other people and cultures and contributing to the hosting communities. The networks and some of its organizations engaged in the management of IVS projects and who were embracing the position paper's message, reminded their commitment to a world where everybody is free to move and free to settle, being this right universal, inalienable and to be exercised without distinction of any kind.

Furthermore, the project is grounded on some important principles expressed in two reference documents:

Universal Declaration of Human Rights

- **Article 13**

1. Everyone has the right to freedom of movement and residence within the borders of each State.

2. Everyone has the right to leave any country, including his own, and to return to his country.

- **Article 14**

1. Everyone has the right to seek and to enjoy in other countries asylum from persecution.

2. This right may not be invoked in the case of prosecutions genuinely arising from non-political crimes or from acts contrary to the purposes and principles of the United Nations.

Protocol No 4 of the European Convention on Human Rights

- **Article 2 - Freedom of movement**

1 Everyone lawfully within the territory of a State shall, within that territory, have the right to liberty of movement and freedom to choose his residence.

2 Everyone shall be free to leave any country, including his own.

3 No restrictions shall be placed on the exercise of these rights other than such as are in accordance with law and are necessary in a democratic society in the interests of national security or public safety, for the maintenance of *ordre public*, for the prevention of crime, for the protection of health or morals, or for the protection of the rights and freedoms of others.

4 The rights set forth in paragraph 1 may also be subject, in particular areas, to restrictions imposed in accordance with law and justified by the public interest in a democratic society.

- ✓ personal empowerment through self-esteem raising, development of the self-confidence, competences and skills development.

During the project it will be proposed a **LEARNING BY DOING APPROACH: the specific learning objectives are organized to be practically experimented through interactive activities and to ensure a coherent learning process.
