

AGORA' IS...

A Strategic Partnership project in the field of innovation aimed to develop tools and pedagogical approaches to fight young people social exclusion, and specifically gender-based discrimination, in public spaces settled in isolated areas.

THE I.O.1

The Intellectual Output 1 is a Toolkit to equip youth workers with innovative and interactive tools to detect the warning signals before the display of the young people gender-based discriminatory behaviours, in order to understand the causes behind and take action. The Toolkit includes the main outcomes of the Country Field Research run in the partner countries, which led to the diagnostic of the involved, isolated areas.
