CALYPSO

**Common Action for Learning,
Youth Participation and
Sustainability within EU
Organizations**

**VIRTUAL TRAINING COURSE
22-30 NOVEMBER 2021**

THE PROJECT

CALYPSO Common Action for Learning, Youth Participation, Sustainability within EU Organizations is an Erasmus+ KA1 multi-action project AIMED at developing tools and working methods, among youth workers and trainers, to raise awareness on the importance of promoting sustainability and Education for Sustainable Development – ESD.

The project includes four strategic actions, all interconnected with each others: one **ONLINE TRAINING COURSE**, one **ADVANCE PLANNING VISIT** and two **YOUTH EXCHANGES**.

METHODOLOGY

The whole project is based on non formal education - NFE methodologies and for this reason, it will be articulated according to the following the NFE main pillars:

- flexibility, being learner-centred, contextualized and based on the promotion of participatory approaches;
- horizontal cooperation, where facilitators and experts create a shared learning path with participants and trainees, encouraging the exchange of knowledge;
- personal empowerment through self-esteem raising, development of the self-confidence, competences and skills development.

During the project it is implemented a **LEARNING BY DOING APPROACH**: the specific learning objectives are organized to be practically experimented through interactive activities and to ensure a coherent learning process. Furthermore, **METHODS ARE RE-ADAPTED** during the process, taking into account the needs of participants and of the different actors involved.
