

CALL FOR PARTICIPANTS

FROM 1 TO 22 AUGUST 2022

"LET'S BECOME GREEN EUROPEAN CITIZENS"

KA1 - LEARNING MOBILITY OF INDIVIDUALS - YOUTH MOBILITY

PROJECT

Through this project, we want to exchange and discover with young people from different cultures ecological practices to improve our impact on the planet. We believe that the world of tomorrow will be built by citizens' initiatives. Indeed, we want to support the participants to share, analyze and improve their customs and habits.

The objective is to discover and propose alternatives to adopt fairer and sustainable lifestyles for the planet. Through living together at the Maison des Bateleurs, the participants will be able to define what eco-citizenship is for them. Thanks to sensitive, artistic and scientific approaches, we wish to bring the young people to question their relation with the environment, and thus help them find other ways of understanding it. Popular Education as well as active pedagogy will be our tools to support and strengthen their power to act.

Finally, the last week will be devoted to design and develop a communication tool chosen by the participants of the youth exchange. This tool will be an instrument to share what they discovered during the first weeks of the project. At the same time, it will be a way to allow young people to become awareness-raising actors.

OBJECTIVES

- **Develop** the consciousness of the participants about their way of consumption and their environmental, economical and social impact.
- **Build** a shared culture about responsible consumption.
- **Discover** practices and ways to consume, in a more responsible way and act for a better environment.
- **Gain** tools to become actor in the collective awareness.
